2018 AT A GLANCE

In 2018, despite the decline in total consumption, we maintained our leadership in the sector by increasing our market share to 31% by 1,67 million tonnes of solid fertilizer sales.

We set a new record of consolidated turnover which we achieved an increase of approximately 31% compared to the previous year.

In addition to the construction of 100.000-tonnes warehouse investment in Iskenderun and getting confirmed permission for Port Enlargement Project in Yarımca, we were awarded the investment incentive certificate from the Ministry of Trade for our investments amounting to 319 million TL in total.

GÜBRETAŞ R&D Centre was commissioned in Yarımca in May with the approval of the Ministry of Industry and Technology.

Then we initiated the most comprehensive R&D project of the sector with the support of TAGEM affiliated with the Ministry of Agriculture and Forestry.

In line with the objective of focusing on productivity and quality in all business processes, we received the international "ISO 9001: 2015 Quality Management System" certificate.

Under the Turkish Soil Productivity Mapping Project that we have been conducting since 2005, we completed soil sample data from around 11.000 agricultural lands from 81 provinces as of the end of 2018.

By creating model production areas for ll kinds of agricultural products at 18 points of Turkey, we shared the results with producers through events for field and garden day during the harvest periods.

In order to strengthen our market efficiency in the region, we brought Sanlıurfa Regional Directorate into service. In line with the needs of the market, while renewing the product portfolio of "Bahçem", our brand in the garden and decorative plants sector, we added new fertilizer types based on slow release technology to our agricultural fertilizer portfolio.

MESSAGE FROM CHAIRMAN

Dr. Fahrettin POYRAZ Chairman Of Board Of Directors

Respectable Shareholders,

A sustainable food production and supply chain is one of the most important agenda items of humanity in order to meet the nutritional needs of the world's population of over 7,5 billion today. Accordingly, as the agriculture sector that provides food all over the world becomes strategically more important in the world, such problems as climate change and shrinking lands necessitate a strong focus on higher productivity in agriculture.

The leading input that affect the productivity in agriculture is the chemical fertilizers in which our company functions. While the consumption of plant nurturing products used for **maximum** productivity per unit area increases by a certain momentum all over the world, it follows a more stable course in Turkey. The total consumption of over 6 million tonnes in 2016-2017 was **5,4 million tonnes** in the previous difficult year. This figure also corresponds to the average fertilizer consumption of Turkey in the last 10 years.

In order to alleviate the repercussions of economic fluctuations experienced in 2018 on the agriculture sector, we took some steps with the purpose of keeping the consumption demand for the fertilizers alive and reducing the impact of price increases on the producers through the cooperation between GÜBRETAŞ

and its main shareholder Turkish Agricultural Credit Cooperatives. In addition, the Turkish Agricultural Credit Cooperatives, which is Turkey's largest farmer families, tried to generate added-value for the national economy by taking an active role in all processes from seed to table in agricultural production.

Despite the economic difficulties experienced, GÜBRETAŞ continues to produce value for the agriculture sector by its **deep-rooted** institutional experience and innovative vision, although there are deviations in some of its financial objectives. As a result of such effort, the composite fertilizer production of GÜBRETAS, EBITDA income and the fact that it has reached records of export and consolidated turnover in its 67-year history are satisfactory. In particular, the steps taken in the field of R&D and field studies aiming at expanding informed agriculture are contributions such as to be exemplary for the agriculture sector.

On the other hand, Razi Petrochemical Co., affiliate of GÜBRETAŞ abroad, completed one of the most successful periods of the last years in terms of production and sales activities in 2018. The fact that ammonia prices delivered a performance over the previous years in global markets, created a positive impact for this affiliate and GÜBRETAŞ.

Considering the dynamics of Turkey in the fertilizer sector,

it is anticipated that fertilizer consumption in 2019 follow a course similar to last year. Through its widespread sales network, innovative vision and proactive approach to risks, our company aims to increase its operating profitability and provide sustainable growth in 2019.

On the other hand, as Turkish Agricultural Credit Cooperatives, the fact that the basic inputs required by our farmers, primarily fertilizers, in the first stage of agricultural production will be provided from our cooperatives while prioritizing product purchases under contract production works based on demand-based production planning in the upcoming period, will reflect positively to the sales volume of GÜBRETAŞ.

Continuing large investment work without slowing down in this period, GÜBRETAŞ will gain more strength by realizing significant investments such as harbour extension in Yarımca Plant, the construction of the phosphoric acid storage tank and the construction of a warehouse in Iskenderun Plant in 2019.

Personally thanking all who contributed to GÜBRETAŞ's work and all of our shareholders, I wish 2019 will bring prosperity and good results to our country and our agriculture sector.

MESSAGE FROM CEO

Dear Investors, Business Partners and Valuable Employees;

2018 made history as a year of significant changes and challenges for the whole world. We left behind a year going by continuous high tension along with some developments from trade wars to the violence that is carried to almost every part of the world, in particular nearby geography, from the fact that countries become introverted to shrinking liquidity.

The second half of last year was a difficult period in terms of Turkey's economy affected differently from this situation. Despite the positive developments in the last months of the year, we ended 2018 with a high inflation rate of 20,3%. What pushed our economy most last year was the financing costs rising parallel to soaring inflation. On this rise, the effect of the fact that the Turkish lira is 39 per cent weaker against the US dollar in one year and 33% against the Euro was also areat.

We observe that the turbulence in the financial markets, which started in mid-July and lasted until October, decreased and ended by going through a **stabilization process** and that macroeconomic indicators are following a more positive course.

Despite all these difficulties as GÜBRETAŞ, we never give up investing in our business and our country. In line with our long-term perspective, we focused on producing value for all our stakeholders in the sector, while continuing our activities as a leader and example company as always. 57 million TL of total investment of

196 million, which we made in our plants in different regions of Turkey in the last three years, was realized in 2018.

We finished 2018 year-end with approximately 1,7 million tons of sales, reaching a market share of 31% within the total fertilizer consumption in our country, which was realized as 5,4 million tonnes. In 2018, we increased our export trend, which we initiated in 2017, by 200% compared to the previous year and raised our bar in this field higher.

Despite the decline in domestic consumption demand, we reached a new record by a consolidated turnover of 4,6 billion TL increasing by 31% compared to the previous year with the contribution of overseas activities and by the impact of cost-based inflation. However, by the impact of the interest and exchange rate volatility, we had to incur high financing costs.

We focused on quality and innovation in all processes and received the "ISO 9001: 2015 Quality Management System" certificate. While we put GÜBRETAŞ R&D Centre into operation in Yarımca in May with the approval of the Ministry of Industry and Technology, we initiated the most comprehensive R&D project of the sector with the support of TAGEM affiliated with the Ministry of Agriculture and Forestry.

We also intensified our activities to **expand informed agriculture**, which we increasingly sustained as of last year and which were taken as an example by the sector, in order to minimize the losses caused by the use of fertilizers and increase the yield. By creating model production areas at 18 points of Turkey for the first time in the same year, we allowed producers to experience and observe the results of the trial planting in the events for field/garden day. In addition, we also supported on-site agricultural advisory services, which we provided for the purpose of practices to be sustainable, through Whatsapp Advise Line for faster communication.

The investment for a new, modern and warehouse which will serve over the industry standards to increase our logistic capabilities in İskenderun and completion of approval processes of the Port Enlargement Project which will take our logistics activity to the next level in Yarımca are important steps in terms of investments that will carry GÜBRETAŞ to the future.

Also in 2019, as GÜBRETAŞ, we will continue to do our job in the best way we can, work and produce for our country. By focusing on improving the value-added we created through trust and faith we have for the future of Turkey, we will continue to shoulder responsibility for the social development of our country and play our leading role in the sector.

I would like to express my sincere gratitude to all our shareholders, Board of Directors, our points of sale, business partners, executives and employees, in particular our main shareholder Turkish Agricultural Credit Cooperatives who give us strength in this way we start out and takes GÜBRETAŞ and our country to the better and the further.

Sincerely

BOARD OF DIRECTORS

Dr. Fahrettin POYRAZ

Chairman of Board of Directors

Fahrettin Poyraz, who is a graduate of Faculty of Political Sciences, Ankara University, received his master's degree from Kırıkkale University and from the Public Administration Institute for Turkey and Middle East, received his doctoral degree in public administration from Hacettepe University. Poyraz, who worked as the accounting auditor in the Ministry of Finance and the chief auditor in the Court of Accounts, is a Chartered Accountant and holds an International External Auditor's Certificate. Poyraz, who worked as a Board Member of Assistance and Solidarity Foundation of Faculty of Political Sciences Alumni, is currently a Member of Central Disciplinary Board of General Directorate of Sports and representative of upper division of Turkey Football Federation. Poyraz, who served as the parliamentary deputy for three terms, also served as the Chairman of the Public Economic Enterprises Commission. Poyraz serve as the General Manager of Central Union of Agricultural Credit Cooperatives and Chairman of GÜBRETAŞ Board of Directors since December 2017.

Dr. Ahmet BAĞCI
Deputy Chairman of Board of Directors

İbrahim YUMAKLI Board Member

Mehmet TUNÇAK
Board Member

He graduated in 2004 from Faculty of Economics and Administrative Sciences, Department of Economics, Gazi University. He received his master's degree in 2011 and doctoral degree in 2017 in Social Sciences Institute, Gazi University. Between 2004 and 2007, he worked as an Assistant Specialist in the Ministry of Culture and Tourism and as an Assistant Financial Crimes Investigation Specialist at the Ministry of Finance between 2007-2008. In 2008, he served as a member of profession in the Court of Accounts, and completed the European Union Basic and Expertise Training in the Centre for Application and Research of the European Communities at Ankara University. He worked as an advisor at the Ministry of Youth and Sports between 2013-2014. Having served in various positions in the Secretariat General of the Presidency between 2014-2017, Bağcı was appointed to Assistant Director-General for the Central Union of Agricultural Credit Cooperatives. Since May 2018, he has been serving as the Deputy Chairman of GÜBRETAŞ Board of Directors.

İbrahim Yumaklı graduated in 1992 from the Department of Management, Faculty of Economic and Administrative Sciences, Uludag University. He started his work life in 1993 as an expert of import operations at Marshall Boya A.Ş., then served until 2011 as a manager in Marshall Boya A.Ş. within Akzo Nobel Türkiye and financial departments of group companies. In 2011, he transferred to Al-Jazeera Turkey, and managed Cine5 TV channel owned by Al-Jazeera Turkey in 2012-2015. In January-October 2016, he served as the International Operations Director of Anatolian News Agency. Yumaklı started from October 2016 at GÜBRETAŞ as the Deputy General Manager and Executive Director, and was appointed as the General Manager on 5 May 2017.

COMPANY EXECUTIVE MANAGEMENT

İbrahim YUMAKLI

General Manager Manager

He completed his bachelor's degree in 1992 at Business Administration division of Faculty of Economics and Administrative Sciences at Uludağ University. YUMAKLI, who began his working life in 1993 at Marshall Boya A.Ş. as import operations specialist, has worked at managerial positions in the financial groups of Marshall Boya A.Ş. and subsidiaries under Akzo Nobel Turkey organization until 2011. In 2011, he started working at Aljazeera Turkey. Between years 2012 -2015, he worked as the manager of Cine5 television channel owned by Aljazeera Turkey. Between January 2016 and October 2016, he worked as international operations director of Anadolu Agency. İbrahim YUMAKLI started working as acting general manager and executive board member of Gübretas at 28.10.2016 and he was appointed general manager at 05.05.2017.

Mahmut KARAMAN, PhD.

Assistant General Manager Ph.D. Mechanical Engineer, MBA - Manager

He was born in 1969 in İstanbul. In 1990, he graduated from Mechanical Engineering division of Yıldız Technical University. He completed his master's degree and doctorate in control systems field in USA, 1997. He completed his master's degree in Business Administration at Colorado University Boulder, Leeds School of Business in 2007. Between years 1998–2008, he worked on controlling systems, research-development and design topics at Seagate technology

company, which is the world leading hard disc producer. During the same period, he also gave "Control" lessons at the level of post-graduate in the University of Denver and the University of Colorado at Denver. Between years 2008-2013, he worked as the president of revenue management at Turkish Airlines and Qatar Airlines, respectively. Between the years 2013-2015, he worked as general manager at Technology Development region of Yıldız Technical University and afterwards, starting from the date of 4th of February, 2015, he was appointed as assistant general manager responsible from facilities and investments at Gübretaş. Besides, he continues to work as vice chairman of the Board of Tarkim Bitki Koruma Sanayi ve Ticaret A.Ş.

Metin ÖZYÜREK

Assistant General Manager Geophysics Engineer-Manager

Mr. ÖZYÜREK, who was born in 1969, graduated from Geophysics Engineering division at Istanbul University in 1991 and from Banking and Insurance division of Anadolu University in 2008. Between years 1993-2003, he worked as the regional manager of Marmara and Central Anatolia regions and then general coordinator at HDI Insurance and afterwards, in 2003 he started working as general manager at Özyürek Insurance. Then between years 2010-2012, he continued his working life at Nessen International Trade Company as project engineer and executive committee member and between years 2012-2016, he worked as manager of Marmara region at İstanbullines. He wrote articles about insurance sector in Dünya newspaper,

Türkiye newspaper and local newspapers. Metin ÖZYÜREK has been working as assistant general manager responsible from sales and marketing at Gübretas.

Mesud ŞENKARDEŞLER

Assistant General Manager Manager

He was born in 1981 in Sakarya. In 2003, he graduated from International Relations division of Bilkent University. In the same year, he began his career as export specialist at Petlas A.Ş. He specialized in main functions like sales, marketing, product management, field sales coordination and importexport operations. Between years 2005-2006, he worked as product specialist responsible from Marmara Region at Tyco Sağlık A.Ş. and between years 2007-2011, he worked as process-business development and network management consultant at Ototronik Otomotiv ve Enerji A.Ş. Afterwards between years 2011-2015, he worked as automotive, energy and finance sector manager at GFK Turkey and he was assigned as senior consultant around one year. Between years 2015-2016, he worked as senior manager in Borem Research. Mesud ŞENKARDEŞLER, who began working as foreign trade manager at Gübretaş in 2016, was assigned as assistant general manager responsible for supply chain at the date of 30.09.2016 as proxy and starting from the date of 28.10.2016 principally.

Ahmet Levent SERTTAŞ Assistant General Manager Manager

Ahmet Levent SERTTAŞ graduated from business administration department of Boğaziçi University and has the master's degree in the field of finance from London

Business School. SERTTA\$ is a freelance accountant. He started his career at Arthur Andersen Audit Department in 1996 and has worked in the fields of financial auditing and financial reporting at Arthur Andersen and Ernst & Young offices in Istanbul, Johannesburg, London and Abu

Dhabi. Then he worked as the General Manager consultant in IPIC in Abu Dhabi, and as the founding CFO in International Islamic Liquid Management in Kuala Lumpur and in Tosyalı Toyo Çelik A.Ş. in Istanbul. He started his career in Gübretaş as assistant general manager responsible from Finance in 2018.

J. EMPLOYEE INFORMATION

Changes in employee as of 31.12.2018 are shown below in Table 2:

Table 2: EMPLOYEE STATUS

TOTAL	568	564	0,71%
Other Facilities and Reg. Off.	131	126	3,97%
Yarımca Facilities	330	332	(0,60%)
Headquarters	107	106	0,94%
Employee	31/12/2018	31/12/2017	Change

Collective Bargaining Agreement

In 2018, relations between Gübretaş and Petrol-İş Trade Union continued in a constructive manner. The duration of the collective bargaining agreement between Gübretaş and Petrol-İş Union ended on 31.12.2018. The parties have started negotiations on 06.02.2019 for a new collective bargaining agreement including the years of 2019 and 2020.

Training Activities

Training activities were held with the aim to develop managerial, personal and professional capabilities of the staff. Training activities of 5.777 hours with participation of 433 employees were carried out in 2018.

II TURKEY AND GLOBAL FERTILIZER MARKET IN 2018

Turkey does not have the raw material resources used in production of chemical fertilizers. Around 95% of main inputs such as natural gas, phosphate rock, potassium salts are procured from foreign markets. Due to dependence on foreign markets, international market conditions, exchange rates and fluctuations in prices of fertilizers and raw materials have major effects on our sector.

The nitrogen-based fertilizers and fertilizer raw materials are mostly procured from Black sea basin while phosphate-based ones are mostly procured from North Africa basin. Therefore, the prices in Turkish operations are usually set according to these basins' prices. Market prices are also affected by USD/TL exchange rate as well as international fertilizer prices. Market prices can increase or decrease with regards to increases and decreases of USD exchange rate.

In this context, especially in the 3rd quarter of the year, due to the decline in TL against the US dollar, product prices reached their highest level in August. According to the easing of the exchange rate towards the end of the year, prices in the markets also displayed a downward movement

When we look at the price movements of the important products in global markets in 2018, it is observed that the prices of Ammonia Black Sea region have increased by 8% annually on average. One of the other important benchmark prices in the global markets, the Indian region, Ammonia prices, followed a downward trend in early 2018. The prices that have entered a serious upward trend since the third quarter of the year, started to relax again towards the end of the year. However, the prices were outperformed in 2018 with an annual average increase of 15%.

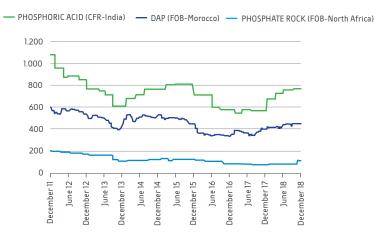

The Black Sea region prices of Urea, another important product of the group of nitrogen fertilizers, followed a bumpy course in the first half of 2018. Following an upward trend in the third quarter, Urea again fell towards the end of the year and closed the year at 270 \$/ton (FOB).

The DAP product, which is one of the important product groups for the global markets, entered the 2018 with an increase trend and continued this movement throughout the year.

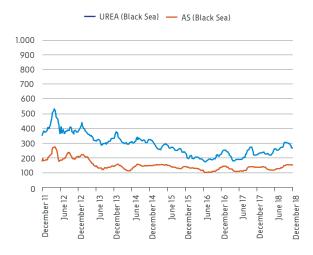

The main reason for the increase in DAP prices is that the increase in phosphoric acid, sulfur and ammonia prices push up the production costs. In the first quarter of 2019, it is foreseen that the prices of phosphoric acid, sulfur and ammonia will be loosened and the prices of DAP will loosen up in the medium term.

When the price movements of the product groups were examined for 2018, it is seen that the price levels increased by USD 30 compared to the previous year, especially as a result of the contract negotiations in China and India. As the prices were fixed by contract, the price loosening seen in other products was not reflected in the Potassium group significantly. In 2019, prices are expected to remain stable.

Graph 2: FERTILIZER PRICES IN INTERNATIONAL MARKETS - FOB US\$/TON

Graph 3: FERTILIZER PRICES IN INTERNATIONAL MARKETS - FOB US\$/TON

Gübretaş is the first and pioneer company of Turkey in chemical fertilizer industry. An important portion of the sales of the company is realized through the Central Union of Agricultural Credit Cooperatives ("TACC"). There are 8 regional offices throughout Turkey.

In 2.765 sales locations (sum of cooperatives and other dealers) Gübretaş sells to every corner of Turkey where there is agricultural production.

A. INFORMATION ABOUT OUR FACILITIES

Gübretaş owns a total real estate area of 427.286 m² that consists warehouses, business buildings and lands and 161.621 m² of this area is closed.

Yarımca Facilities have 985.000 tons/year solid fertilizer production capacity, İzmir Facilities have 100.000 tons/year liquid and powder fertilizer production capacity,

therefore Gübretaş has 1.085.000 tons/year fertilizer production capacity in total.

The total capacity of our warehouses is 362.000 tons.

In addition, the new warehouse investments of Gübretaş at İskenderun are in progress and the investments are planning to be completed in 2019.

B. PRODUCTION

Gübretaş produced 515.880 tons of compound fertilizers, 91.810 tons of nitrogen-based fertilizers, 62.440 tons of phosphate-based fertilizers, and a total of 670.130 tons in 2018. In addition, 21.292 tons of liquid and powder fertilizers were also produced.

Solid fertilizer production decreased by 1,92%; liquid and powder production decreased by 5,35% in 2018 compared to 2017. Total fertilizer production decreased by 2,03%.

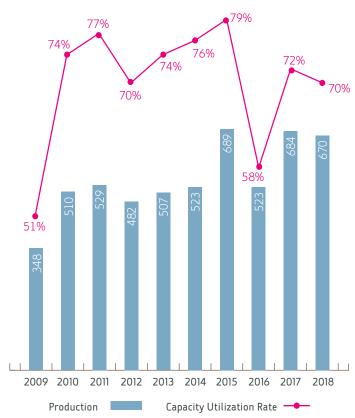

Some of the finished products were used as intermediate goods in the production process. Capacity utilization rate was 70,21% in 2018.

D. INVESTMENTS

In Turkey operations, Gübretaş spent 57.503.480 TL (2017: 70.333.018 TL) for capital expenditures in 2018.

In 2019, the Company's investments continue within the scope of the following activities and it is planned to realize the related investments as soon as possible.

- → Start of the first phase of the port embankment project in Yarımca plant,
- → Phosphoric acid tank construction in Yarımca facilities,
- → Start improvement works in NPK-2 facilities in Yarımca plant and,
- → The commissioning of 100 kton warehouse in Iskenderun facilities

The Case of Benefiting From Incentives For Investments

The completion visa of Investment Incentive Document numbered 110061 by Turkish Ministry of Trade was realized on 20/09/2018. The fixed investment was realized with an amount of 290.369.160 TL. The support elements to be utilized by the investments are the Insurance Premium Employer's Share Support for the year 2018, Customs Duty Exemption, Tax Reduction Ratio (100%), Investment Contribution Rate (40%) and VAT exemption. In 2018, Insurance Premium

Employer Share Support and VAT Exemption were benefited from in the construction of twin NPK plants and ammonia tanks.

Referring to the application dated March 26, 2018 and numbered 38928 made by the Company to the Turkish Ministry of Trade, the Investment Incentive Certificate dated May 16, 2018 and numbered 136984 was obtained. This Investment Incentive Certificate is valid until 26.03.2021 and includes fixed asset investment plans amounting to 84.000.000 TL. The support elements to be utilized by the investments are Tax Reduction Ratio (70%), Investment Contribution Ratio (30%) and VAT exemption. In 2018, VAT exemption was utilized in İskenderun Facilities Modernization processes.

Referring to the application dated March 26, 2018 and numbered 38927 made by the Company to the Turkish Ministry of Trade, the Investment Incentive Certificate dated Monday, June 11. 2018 and numbered 137850 was obtained. This Investment Incentive Certificate is valid until 26.03.2022 and includes fixed asset investment plans amounting to 235.000.000 TL. The support elements to be utilized by the investments are Tax Reduction Ratio (50%). Investment Contribution Ratio (25%). Insurance Premium Employer's Share Support and VAT exemption.

III RESEARCH AND DEVELOPMENT ACTIVITIES

A. TURKEY SOIL PRODUCTIVITY MAP

Studies about "Soil Productivity Map Project" continues. With this project, the aim is to form the map of soil fertility of our country. In this respect, current qualitative and quantitative information is categorized according to locational data and is input as data into subcategories under each different location with a mapping software. Analyses from a total 10.024 locations, which are obtained with GPS device position detection, are completed. Also, soil samples that are received from farmers are being analyzed and reports that include fertilization suggestions are sent to landowners.

B. QUALITY DEVELOPMENT ACTIVITIES

Quality improvement works are continuing for the best quality of all fertilizers and special products offered to Turkish Farmer with its expert staff, qualified human resources and equipped laboratory infrastructure.

The İzmit Yarımca Laboratory renewed the 17025 ISO/EN Quality Certificate of after the inspections carried out by Türkak. İzmir and İskenderun Laboratories continue their studies by expanding the scope of analysis.

C. PRODUCT DEVELOPMENT ACTIVITIES

With the approval of the Ministry of Industry and Technology in 2018, the R & D Center was established within the body of Yarımca Facilities. In order to develop new generation and innovation plant nutrition products by using domestic and national resources at the maximum level, it is aimed to develop solutions that will enable the country and producers to reach the products they need more easily by using cooperation models with public institutions and universities.

In 2018, the first year of the R & D Center, the R & D project, submitted to the Ministry of Agriculture and Forestry, General Directorate of Agricultural Research and Policies (TAGEM), was adopted and it was decided to carry out the project with government support for 36 months. The project partners include Konya Selcuk University and Ankara University and agricultural research institutes in 6 different regions.

D. SUPPORT TO LOCAL PRODUCT

Gübretaş has been conducting R & D studies for years for the use of domestic inputs in chemical fertilizer production. In line with this goal, Gübretas is increasing the number of plant nutrition products containing the element boron, which is the important underground riches of Turkey. Taking into account Turkey's soil structure and nutrient needs of plants, Gübretaş is developing products such as **ALTIN ÇİÇEK-S**, SÜPER PANCAR-S, ÇOTANAK FERTIL and SÜPER COTANAK. These base fertilizers, which are specific to the plant and the region, are produced with boron additive. In addition, Gübretas's product portfolio includes products such as **DERMIN**, **BOR**, BOR-8, COMBİ, COMBİ PLUS and MICRO containing different amounts of boron used in drip irrigation and foliar feeding of plants.

IV. SOCIAL RESPONSIBILITY PROJECTS

A. TURKEY SOIL PRODUCTIVITY MAP PROJECT

Initiated in 2005 by Gübretaş as a social responsibility issue, the project, which aims to explain the importance of soil analysis that plays an important role in increasing productivity at agricultural production and to form the productivity map of agricultural areas, is being carried out just by the sole capability of the company.

The main objectives of this project, which is being carried out by Gübretaş for over ten years, are:

- 1. To create a database for the future of agricultural production by preparing the productivity map in macro and micro nutrient elements according to our country's geographic regions and provide a source for studies in these fields,
- 2. Starting with Turkish
 Agricultural Cooperatives
 partners, to increase the
 consciousness in fertilizer
 consumption of all farmers and
 determine fertilizer patterns of
 sampled lands,
- 3. To help farmers by analyzing if there is a problem in their land and reporting solutions to these problems according to soil analysis,

- 4. To help Gübretaş' R&D studies by developing plant-specific and region-specific fertilizer formulations according to obtained data,
- 5. To contribute to build a huge database for our country's agriculture by combining Gübretaş' studies conclusions with studies of the Ministry of Food, Agriculture and Livestock of Turkey and universities.
- 6. To train a minimum of 10 thousand major farmers about agricultural issues like getting soil examples, fertilizers, fertilization techniques and consciousness in agricultural production with this project.

B. GÜBRETAŞ SCHOLARSHIP

The scope of GÜBRETAŞ scholarship, which was initiated in 2007 for students at agricultural faculties in order to support human resources in agricultural sector, has been expanded at 2017. Now, a certain number of students with Master's Degree and doctorate, which study in agricultural faculties, have begun to benefit from scholarship starting with this year.

Within this scope, scholarship is being provided to children of farmers in need while they get their undergraduate education, at 35 different agricultural faculties all around Turkey. With this project, which more than

350 students at agricultural faculties benefited from since the initiation, around 126 students continue to get scholarship.

C. CONSCIOUS AGRICULTURAL TRAINING

Gübretaş conducts training activities for producers in accordance with its mission "increasing fertility to our land by spreading the consciousness in agricultural production". Our training activities, which have objectives like supporting Turkish producers growing more efficient and higher quality agricultural products that can be competitive globally and achieving higher profitability via optimizing costs of inputs starting with fertilizers, continue all year long. In training meetings, producers are informed about different issues like basic principles of balanced and regular fertilization, plant nutrition techniques and soil analysis. Expert agricultural engineers also provide practical consulting services through field studies and prescribing activities. GÜBRETAŞ also carries out agricultural consultancy services through Producer Support Line, web and mobile applications and social media.

D. PRODUCER SUPPORT LINE

GÜBRETAŞ enhanced its consultancy service to the producers with live telephone connection. From all around Turkey, producers can call telephone line (0850) 811 50 50 and they can ask their questions to expert agricultural engineers about plant nutrition and agricultural production and they can get replies from related engineers. In this way producers, who can call from fields, yards, and gardens, found the opportunity to solve their production problems, exchange information, and get information about products and services.

E. MOBILE ADVISORY SERVICES

Gübretaş, who composes special fertilization programs by its inhouse engineers and R&D team in order to increase productivity in agricultural production, has brought this valuable experience into use of producers with EFP (Efficient Fertilization Programs) application. With this new mobile application, which is developed by Gübretaş and is free of charge, the producers can track plant nutrition programs for 40 agricultural products, which are being produced in Turkey, with usage time, method and dosage. With this new application, 67-years of industry experience

of Gübretaş is transferred to smartphones and tablets. The producers now have the opportunity to request instant information from "Ask the Expert" function of the application even when they are working in the field

F. MODEL AGRICULTURAL PRODUCTION

In order to expand consciousness in agricultural production, model test fields/gardens are being formed. As Gübretaş, in these tests, which are being carried out with pioneer producers, achieving maximum yield with minimum fertilizer consumption is being aimed. Thus, the aim is to prohibit the wastage of resources by avoiding more than necessary fertilizer consumption and to protect our soil, which is one of our most important sources.

Test fields/gardens are continuously controlled by expert engineers in the production era and the results are shared with producers living in places, where "field days" are organized. The plant nutrition programs, which are carried out at test places, are converted to documentations named "Efficient Fertilization Programs" and provided all of the producers with different communication channels.

V. OTHER DEVELOPMENTS REGARDING COMPANY ACTIVITIES

A. ORDINARY AND EXTRAORDINARY GENERAL ASSEMBLIES AND DISTRIBUTION OF DIVIDENTS

66th general assembly meeting for 2017 fiscal period was held on 3th of May, 2018 on Thursday and the details are presented in corporate governance principles compliance report. Within the period, there has not been any extraordinary general assembly meetings held.

Gübre Fabrikaları T.A.Ş distributes dividends within the frame of our dividend policy which was prepared in accordance with Communiqué on Dividends (II-19.1) of Capital Markets Board.

Our company adopted the principle to distribute the maximum percentage of profits to its shareholders while considering benefits of the company also. There are no privileges in dividend payment. Dividends are distributed equally to all shares regardless of their issue and acquisition dates.

In line with the 31st article of our articles of association, the dates and methods of paying dividends are decided by the general assembly in accordance with the proposal of the board of directors.

There was no dividend distribution in 2018. Cash dividend (gross) ratios paid per 1 TL nominal shares for last 5 years are shown in Table 8:

Tablo 8: DIVIDEND RATIO PER SHARES IN YEARS

2017	2016	2015	2014	2013
-	-	%10	%15	%20

B. DONATIONS AND AIDS

In 2018, the payment of scholarship was 816.300 TL. In addition to scholarship, Gübretaş provided 56.300,19 TL aids to various educational institutions. Therefore the total amount of donations and aids became 872.609,19 TL in 2018.

C. INTERNAL AUDIT ACTIVITIES

The Internal Audit Department, which works under General Directorate, audits whether the activities of headquarters, facilities and regional offices are compliant with legal acts, corporate vision, mission, target, strategy, general purpose, procedures, instructions, reliability and accuracy of information, company policies, plans, procedures, regulations and compliance with the law, protection of assets, efficient use. objectives set for activities and programs, realization of goals, causes of errors, corrective measures, efficiency of activities and consequently our company activities as a whole and proposes the audit reports to executive management by providing curative proposes in accordance with audit findings.

D. PRIVATE AND PUBLIC AUDITS

In Gübretaş, there is a tax inspection (full review) process that started in 2016 and is currently underway.

Besides the independent auditing of consolidated financial statements, our company is also receiving full confirmation service for corporate tax declaration.

E. INFORMATION ABOUT RELATED PARTIES TRANSACTIONS AND BALANCES OF RELATED PARTIES ACCOUNTS

Detailed tables are given in the 30th footnote of consolidated financial statements belonging to the fiscal period of 1 January - 31 December 2018.

F. LAWSUITS BROUGHT AGAINST OUR COMPANY AND OTHER MATTERS

On the 8th and 16th footnotes of consolidated financial statements, subjects of lawsuits brought by our company and the other parties, latest situations and their impact on our consolidated financial statements are stated.

There has not been any administrative or legal sanction being implemented to the company or members of the managerial body due to violation of provisions of related regulations.

G. AFFILIATION REPORT

The conclusion of the "Affiliation Report" prepared in accordance with 199th article of the Turkish Commercial Code No. 6102 for the period of 01.01.2018-31.12.2018 is presented below:

""The controlling shareholder of our company is the Central Union of Turkish Agricultural Credit Cooperatives ("Central Union"), which is registered in Ankara Trade Registry Office with the registry number 35791 and located at 'Yukarı Bahçelievler Mahallesi Wilhem Thomsen Caddesi No:7 Çankaya Ankara', In this context, it has been concluded that:

- → In the previous fiscal year, there has not been any judicial action taken in favor of the controlling shareholder, a company affiliated with the controlling shareholder or by the directions of the controlling shareholder beneficial to it or one of its affiliates.
- → In the previous fiscal year, there has not been any precautions taken or avoided in favor of the controlling shareholder or a company affiliated with it."

H. AFFILIATES AND SUBSIDIARIES

Detailed information about affiliates and subsidiaries are given in the 1st footnote of consolidated financial statements belonging to the fiscal period of 1 January - 31 December 2018.

VI. ACTIVITIES OF IRAN

A. PRODUCTION

Razi Petrochemical Co. is one of the largest fertilizer and fertilizer raw materials production facilities in Iran with 877.000 m² total area. Total capacity of Razi is 3.641.000 tons/year including its own 3.515.000 tons/year and its subsidiary Arya Phosphoric Jonoub Co. which has 126.000 tons/year. In Razi and its subsidiary Arya Phosphoric Jonoub Co., total production was 1.850.906 tons (2017: 1.776.670 tons) and the capacity utilization rate was 50,84% (2017: 48.80%) in 2017.

B. SALES

Export product prices in Razi
Petrochemical Co. are formed
in accordance with the prices in
Middle East basin. Profitability
levels move in parallel with
increases-decreases in commodity
prices.

In 2018, Razi and its subsidiaries sold 1.504.379 tons (2017: 1.426.644 tons) of fertilizer and achieved a revenue of 1.990.946.875 TL (2017: 1.383.888.122 TL).

Being a fully integrated facility, the reason of difference between production and sales is the internal consumption as some of the products are used as intermediary products.

C. INVESTMENTS

In Razi facilities, renovation investments and investments aimed to increase the productivity in current facilities were realized. In Iran operations our company spent 9.774.848 TL (2017: 39.889.440 TL) for capital expenditures in 2018.

VII. HUMAN RESOURCES POLICY AND CODE OF ETHICS

A. HUMAN RESOURCES POLICY

Considering human resources as its most important asset and finding its sustainable growth in its employees' competencies and development, Gübretaş does not discriminate between ethnic origin, language, religion, gender and political thinking while selecting and placing employees in work. The company aims to find idealist and innovative people suitable for teamwork, acting on the basis of fair approach, effective communication and solution-oriented behavior. While making evaluation, objective success criteria and corporate culture are taken as a ground.

Before making decisions about the employees, importance is given to the exchange views with employees and employee representatives.

In line with occupational health and safety and environmental quality systems, continuous improvement and organizational development activities are performed. As a result of organizational development activities, job descriptions and process flows are organized according to changing and evolving Company activities.

Company employees are encouraged to strive for horizontal and vertical careers, while the necessary physical, social and psychological

environment is being prepared accordingly. Employees' efforts are rewarded materially and morally.

Necessary steps are taken in order to eliminate the deficiencies in employee's knowledge, background and experience with the methods and techniques meeting the needs of today and enabling the preparation for the future. Unit targets are set in line with budget expectations and company strategies and needs analyzes are performed by the Company in order to achieve these targets. According to the needs analysis, training and personal development activities are planned and these activities are implemented.

B. CODE OF ETHICS AND LABOR POLICY

The ethical principles within Gübretaş express the whole set of behaviors that are to be complied with or which should be avoided being "honesty", and all matters that the Company has taken into consideration within the scope of the ethical principles are expressed under the "Gübretaş Code of Ethics and Labor Policy".

The main objective of the Company's Code of Ethics is to create a common corporate culture on business ethics/morals where the regulations,

procedures, instructions, standards, laws and regulations may not be guiding all about our attitudes and behaviors and to raise awareness, sensitivity and knowledge on this issue.

In this context, Company employees and suppliers are expected to act under this policy. Under these principles, Gübretaş rejects all kinds of discrimination, physical and psychological violence.

Ethical violation notification channels have been established via the e-mail address of etik. bildirim@gubretas.com.tr and telephone number 0216 468 50 55 in order to determine the behaviors that are not in compliance with the Company Code of Ethics and Labor Policy. Company makes an immediate decision by mobilizing the relevant board and persons for the individuals conducting disorderly, these decisions are implemented and the people making the violation notifications are informed by the Company about the result.

VIII. RISK MANAGEMENT AND FACTORS

A. RISK MANAGEMENT

Works related to the early determination of the risks which may jeopardize existence, development and continuance of Gübre Fabrikaları T.A.Ş. and application of the necessary measures regarding the determined risks and management of the risk are being carried out under the coordination of Risk, Process and Quality Management Department. Company-wide, risks are tracked on the basis of four categories which are financial risks, strategic risks, operational risks and other risks. Risks that have a potential to affect positively or negatively the Company's activities are continuously evaluated with the related managers. Daily and monthly reports are produced with regard to the risk management and action plans are prepared and implemented when necessary. In the context of studies to develop an "Integrated Risk Management System". the studies about the software related to the risks in financial category were completed and the modul has been put into practice. On the one hand, for the minimization of risks and more effective management, the processes of company were analyzed, criteria were defined and "Quality Management System" was started to be implemented. In

order to increase efficiency of corporate risk management, "Risk Management Policy" was defined and published company-wide.

B. RISK FACTORS

Financial risks, strategical/political risks and operational risks are considered as main risk factors while we try to reach our targets. Our company takes required measures to minimize risks, financial and operational ones in particular.

Our company, which procures nearly all of the finished products and raw materials being traded and used in production from global markets, is affected by fluctuations in currencies and prices due to this dependency. These risks are aimed to be minimized by using derivatives (hedging) against currency fluctuations and by actively following the market against fluctuations in raw material and commodity prices.

Risks that can be faced through supply, storage, production and transportation are evaluated within scope of operational risks. It is aimed to increase our storage capacity and to improve efficiency of our production facilities by domestic investments.

By the close follow-up of our supply and logistics processes, it is aimed to avoid any failures that may arise and to take quick actions when required.

IX. BOARD OF DIRECTORS

A. THE STRUCTURE AND COMPOSITION OF THE BOARD OF DIRECTORS

In our company; board of directors are elected at the general assemblies under the framework of the Articles of Association, Turkish Commercial Code and Capital Market Law.

B. PRINCIPLES OF THE OPERATIONS OF THE BOARD OF DIRECTORS

The board of directors conducts its operations in a transparent, fair and responsible way. The board reviews the efficiency of risk management and internal control systems of our company once in every two months via Committee of Early Determination of the Risk. Information is given in Annual Report about the mechanism and efficiency of internal control system. While the authorities of the chairman of the board and chief executive officer/ general manager were not separated clearly in articles of association, nobody is furnished with individual unlimited decisionmaking. The board plays a pioneer role while providing effective communication between company and shareholders, overcoming and solving possible conflicts and therefore works in close cooperation with Committee of Corporate Governance and Investor Relations Department.

The losses, which may occur from the faults of board members while performing their duties, are insured.

C. FORMATION OF BOARD MEETINGS

Meetings of the board of directors are carried out and quorums are decided in accordance with the provisions of the articles of association, Turkish Commercial Code and Capital Market Law. GM Office Department, which reports to General Manager, has been constituted to conduct the works with regard to the meetings of the board of directors of the company and to serve the members of the board of directors. Departments prepare their motions for the required resolutions and they transmit it to the GM Office upon obtaining the approval of the General Directorate. An agenda regarding these motions is formed and it is transmitted to the chairman of the board of directors with the invitation letter for the meeting of the board of directors. The invitation letter are sent to the members together with the agenda. The resolutions which were taken in the meeting are sent to the relevant departments after the meeting. 12 board meetings were made in 2018. The members of the board of directors do not have weighted voting rights and negative veto right. The decisions are taken with

the majority of board and the questions asked and statements made by the members are not recorded into minutes. As a principle, the members of the board of directors attend each meeting. The board of directors meets regularly and at least once a month within the framework of the provisions of the articles of association and the board of directors meets when necessary without complying with such timetable.

D. NUMBERS, STRUCTURES AND INDEPENDENCIES OF THE BOARD COMMITTEES

Considering the current situation and the requirements of the company, the board of directors formed Committee of Audit, Committee of Corporate Governance. Committee of Nomination, Committee of Early Determination of the Risk, and Committee of Remuneration in order to perform its duties and fulfill its responsibilities in a healthy way, in accordance with the Turkish Commercial Code. articles of the association of the company and Communique on Corporate Governance of the Capital Market Board. In accordance with corporate governance principle 4.5.2, the studies to prepare the principles on how these committees conduct their activities continue and the compliance to this principle were completed and the working procedures and principles of the

board committees were published on the Public Disclosure Platform on 27 07 2018

Committee of Audit

The committee is composed of three independent members of the Board of Directors. Independent member Mehmet BULUT is the head of the committee. Other members of the committee is Seyfullah ARSLANTÜRK and Murat YAŞA.

Duties and responsibilities of the committee are as follows:

- h) I am not registered and announced for the corporation that has been elected as board member."

E. STRATEGIC GOALS OF THE COMPANY

- > In the context of quality consciousness. efficient resource management, continuous improvement, productivity and customer oriented management approach, to be a company that benefits from modern technological changes as much as possible; by increasing the consciousness of and informing the farmers with the academic world and related institutions. to be a leading company for the development and improvement of Turkish agriculture by creating synergy with the Agriculture Credit Cooperatives,
- → To become the leading company of Turkey that can drive its sector with its infrastructure and well known trademark name "Gübretaş" and can obtain global competitive power with its production technology that meets the global standards,

- → With the approach of 'Human First', to be a company which provides physical and social facilities to its workers, both moral and material, keeps environment consciousness and human health foreground, supports and even becomes a part of social projects.
- → To be a company which emphasizes R & D works by following up the modern developments in the world, provides options to its customers by its information bank and accredited laboratories and provides different opportunities and alternatives to its customers in agriculture sector,
- → Encouraged by the company's origin and past, to procure and produce chemical fertilizers with the best quality at our well-equipped factories with our expert staff having a professional management approach, to create the best marketing and distribution network to our customers that enables us to transport the fertilizers as soon as possible,
- → To preserve a sustainable growth trend in accordance with "highest quality, reasonable cost" approach and keep market advantage,
- → To emphasize advertisement and public relations works by establishing communication channels and bridges between Gübretaş public and farmers and to make image development

- activities convenient to Gübretaş' corporate structure and spread them in and outside the company,
- → To reach the product quality and standardization that could compete with the world in the basis of profitability, productivity, efficiency, to realize continuous improvement studies for efficient and effective resource management, to be self-sufficient for the raw materials used in the fertilizer production, to have production and infrastructure facilities both within and outside the country and to identify the marketing strategies and policies compliant with them.
- → To be a company that measures its success with the customer satisfaction and that finds fast and quality solutions to the needs of the customers.

F. REMUNERATION OF THE BOARD OF DIRECTORS

The remuneration principles of board members and managers with administrative responsibilities are described in the "Remuneration Policy", which was prepared in the frame of corporate governance principles of Capital Markets Board. The policy has been prepared based on board of directors and executive management and announced in our corporate website, both in Turkish and English.

The remunerations to be paid to the members of the board of directors and managers with administrative responsibilities are determined in accordance with global standards and legal requirements while also considering the economic data, current remuneration system policies in the market, company size and experiences, education levels and contributions to the company and the current positions. Stock options or payment plans based on the performance of the company are not used for the remuneration system of the independent members of the board of directors.

Our company has not provided any credit or loans, have not provided any credit under employee loans through 3rd parties or have not provided any collaterals like guarantees to the members of the board of directors or managers with administrative responsibilities. Total benefits provided for members of the board of directors, general manager and assistant general managers in our company for the period of 1st of January-31st of December 2018 are stated in 30th footnote on the consolidated financial statements.

X. EVALUATION ON FERTILIZER SECTOR AND OUR TARGETS

A. 2018 YEAR EVALUATION

Due to economic fluctuations experienced in Turkey, the fertilizer consumption showed a decline in 2018 compared to 2016 and 2017. However, the total fertilizer consumption of approximately 5.4 million tons was close to the average of the last 10 years. Gübretaş strengthened its sector leadership with 1.67 million tons of solid fertilizer sales and a market share of approximately 31%.

At the same time, 2018 was one of the years in which Gübretaş reached one of the highest production volumes at all times. On the other hand, Gübretaş took important steps in the area of exports, which was carried out intensively last year with the aim of providing added value to the national economy. With the export links to the Middle East. Africa and the countries in the region, the amount of solid fertilizers exported abroad in 2018 has doubled compared to 2017 and reached 30 thousand tons . Realizing fertilizer exports to many countries such as Turkish Republic of Northern Cyprus, Ukraine, Georgia, Afghanistan and Azerbaijan, especially in Qatar in the field which it has focused on in recent years, Gübretaş will deliver plant nutrition products to Qatar as well as Oman and Kuwait markets in October 2018 with the distributorship agreement signed with Al Baida Group from Qatar. In 2018, Gübretaş accelerated its R&D activities and has started to operate one of the 900 R&D Centers, recognized by Turkish Ministry of Industry and Technology, in the fertilizer sector. Gübretaş R&D Center, which was established within the body of Yarimca Facilities, continues to work on projects that it has taken on its agenda with 32 employees. Through the close monitoring of the fertilizer market throughout the year and through the opportunity acquisition, Gübretaş left behind a good year in terms of operating profitability, while actively using hedging techniques for the management of commercial and financial liabilities.

While 2018 comes to the fore as one of the most successful periods in terms of production and sales activities of Razi, our subsidiary in Iran, and particularly, the fact that ammonia prices performed above the previous years in global markets was another positive development.

B. 2019 YEAR TURKISH FERTILIZER SECTOR AND EXPECTATIONS FOR GÜBRETAŞ

Considering the dynamics in Turkey fertilizer industry, fertilizer consumption in 2019 is expected to follow a similar course of 2018. Parallel to the economic stabilization, in the aftermath of September 2018, fertilizer prices were adjusted in favor of consumers. Especially in the autumn season, it is observed that the consumers who refrain from using fertilizers for economic reasons give importance to the consumption of nitrogenous fertilizers in order not to experience the yield and quality losses due to inadequate plant nutrition. On the other hand.

timely and balanced spring rains will affect fertilizer consumption positively.

Gübretaş, a member of the largest agricultural producer family; Agricultural Credit Cooperatives, aims to increase operational profitability and ensure sustainable growth in 2019 with its widespread sales network, innovative vision and proactive approaches to risks.

Attracting attention in recent years with the importance it gives to the liquid-powder fertilizer market and the export, Gübretaş aims to become one of the most important players not only in Turkey, but also in the Middle East by continuing its growth strategy in this area.

Gübretaş continues to realize investment projects without slowing down in 2019 and has planned many investments such as the investment of harbor expansion in Yarimca facilities and the investment of phosphoric acid storage tank in the same facilities and the warehouse investment in Iskenderun facility.

Planning to continue its R&D and social responsibility activities without slowing down, Gübretaş aims at leading the innovations and new technologies in the sector with the projects like Agriculture Academy and Turkey Soil Fertility Map and on the other hand will continue to strengthen its leadership in this area in 2019 with the awareness raising activities, model planting, agricultural advisory services and educational scholarship for farmers' children.

B. DIVIDEND RIGHTS

The dividend policy of our company was prepared in accordance with Turkish Commercial Code, Capital Markets Law and the articles of association and was submitted for 62nd General Assembly's approval. "Dividend Policy" is submitted for investors' and public information in our corporate website, both in Turkish and English. Our company did not distribute any dividends in 2017 and our company does not have any privileges regarding dividend distribution

The decision dated 28/03/2018 of the Board of Directors for the use of the 2017 profit is as follows: "The company has achieved a net profit of 30,872,583.43-TL according to legal records; 33,317,912-TL according to Turkish Accounting Standards/Turkish Financial Reporting Standards in 2017. Due to the increased need for cash due to investments and the protection of the financial structure, the following matters are proposed;

- > Not distributing any dividends,
- → Allocating primary legal reserves based on profit in the tables prepared in accordance with legal records,
- → Transferring the remaining balance to extraordinary reserves."

XII. EVENTS AFTER REPORTING PERIOD

- 1. Gübretaş and Socar Turkey Energy Corporation ("STEAS") (Together "Parties"), have signed a letter of intent dated 31.01.2019 which includes the intention to initiate the negotiation process of the Parties to determine the scope of the Potential Cooperation-JV and the mutual rights and obligations of the Parties for realization of a "Potential Cooperation" between the Parties with the purposes of carbamide/urea import from Petrochemical Plants of SOCAR Group of Companies - to which STEAS is affiliated - and other manufacturers in near geography and conducting the sales activities
- of the imported carbamide/ urea in Turkish domestic market and overseas market and for establishment a Joint Venture (JV) in which both parties shall have 50% (fifty percent) of their shares in order to operate within this framework.
- 2. The collective bargaining agreement between Gübretaş and Petrol-İş Trade Union, which will cover the years between 2019 and 2020, was initiated on 06.02.2019.
- 3. It was announced that as a result of the trial held on 27.12.2018 in the ongoing proceedings between Gübretaş and Koza Altın İşletmeleri

Anonim Şirketi with the acceptance of the case, it was decreed that the contract which was executed on 02.07.2007 between the parties shall be terminated. Koza Altin Isletmeleri shall be evicted from the mining field which was the subject of both contact and the case, mining field shall be delivered to Gübretaş with leave to appeal granted. An appeal was filed for requesting a decision that business licenses be registered on the name of claimant (Gübretas) by releasing the decision stating that "rejecting the request for the registration of the business licenses on behalf of the claimant due to administrative nature of the request".

XIII. CORPORATE GOVERNANCE PRINCIPLES COMPLIANCE REPORT

CORPORATE GOVERNANCE PRINCIPLES COMPLIANCE STATEMENT

Gübre Fabrikaları T.A.Ş. (Gübretaş) carries out its activities in accordance with the principles described in Corporate Governance Communiqué issued by the Capital Market Board. Gübretaş believes that corporate governance practices are among the main principles which enables companies to have sustainable growth. Therefore, starting with its shareholders, Gübretas carries out its relations with employees, customers and all the other parties with an active management and supervision in accordance with accountability, equality, transparency and responsibility, which are the universal components of corporate governance. The main activities that have to be carried out by Investor Relations Department according to the 11th article of Corporate Governance Communiqué were performed very carefully. In accordance with the Communiqué, all the principles that are required to be implemented have been complied with. Studies on non-obligatory principles that are not yet complied with are still in progress. In our company, there has not been any conflict of interest resulting from the non-obligatory principles that are not yet complied with. On the other hand, in accordance with the decision of the Capital Markets Board (CMB) dated 10.01.2019 and numbered 2/49;

- the explanations related to the compliance of non-obligatory principles were stated in the Corporate Governance Compliance Report ("CRF") (ANNEX-1).
- the informations about the actual corporate governance practices were stated in the **Corporate Governance Information Form ("CGIF") ANNEX-2)**.

The Company publishes these templates in the Company's Board of Directors Annual Report and the related templates are also made available to the public at the Public Disclosure Platform ("PDP") (https://www.kap.org.tr/tr/)

In case there is a significant change during the period in CRF and CGIF, the material disclosure will be made and relevant issues will be included in the interim operating review reports.

XIV. CONCLUSION

DEAR SHAREHOLDERS,

In 2018, 1.594.167 tons (2017: 2.031.923 tons) of fertilizers and raw materials were procured from domestic and foreign markets and 670.130 tons of various types of solid chemical fertilizer were produced at our facilities. On the other hand, 1.714.177 tons (2017: 1.990.526 tons) of solid, liquid and powder fertilizers were sold in 2018. Net revenues were realized as 2.638.318.593 TL (2017: 2.273.950.745 TL).

Also 1.850.906 tons (2017: 1.776.670 tons) of fertilizer and fertilizer raw materials were produced and 1.990.946.875 TL (2017: 1.383.888.122 TL) sale revenues were realized by the sale of 1.504.379 tons (2017: 1.426.644 tons) of fertilizer and fertilizer raw material in our subsidiary Razi Petrochemical Co. and its subsidiaries.

Our company reached to the consolidated revenue figure of 4.559.086.668 TL (2017: 3.487.261.450 TL). After the deduction of cost of goods sold, operation expenses, other operating expenses-income and financial expenses from this amount; 140.977.347 TL (2017: 11.554.750 TL) profit was realized before tax. 155.555.227 TL (2017: 25.822.668 TL) consolidated profit occurred after adding 14.577.880 TL net tax income to this figure. 64.340.136 TL (2017: 33.317.912 TL consolidated profit) profit to shareholders has occurred after deducting 219.895.363 TL (2017: -7.495.244 TL) which belongs to minority shareholders

We would kindly ask you to evaluate the results mentioned above regarding of 2018 activities.

Best Regards,
BOARD OF DIRECTORS

ANNEX-1 – CORPORATE GOVERNANCE COMPLIANCE REPORT

		COMPANY C	EVELANCEION			
	YES	PARTIAL	NO	EXEMPTED	NOT APPLI- CABLE	EXPLANATION
1.1. FACILITATING THE EXERCISE OF SHAREHOLDER RIGHTS						
1.1.2 - Up-to-date information and disclosures which may affect the exercise of shareholder rights are available to investors at the corporate website.	x					
1.2. RIGHT TO OBTAIN AND REVIEW INFORMATION						
1.2.1 - Management did not enter into any transaction that would complicate the conduct of special audit.					х	
1.3. GENERAL ASSEMBLY						
1.3.2 - The company ensures the clarity of the General Assembly agenda, and that an item on the agenda does not cover multiple topics.	х					
1.3.7 - Insiders with privileged information have informed the board of directors about transactions conducted on their behalf within the scope of the company's activities in order for these transactions to be presented at the General Shareholders' Meeting.	X					
1.3.8 - Members of the board of directors who are concerned with specific agenda items, auditors, and other related persons, as well as the officers who are responsible for the preparation of the financial statements were present at the General Shareholders' Meeting.	x					
1.3.10 - The agenda of the General Shareholders' Meeting included a separate item detailing the amounts and beneficiaries of all donations and contributions.	X					
1.3.11 - The General Shareholders' Meeting was held open to the public, including the stakeholders, without having the right to speak.			х			Article 23 of our Articles of Association stipulates that 'Capital Market Legislation and the relevant provisions of the TCC are the right of participation in the general assembly meeting and voting. In this regard, there is no regulation on the participation of the media or stakeholders being non-shareholders to our general assembly.
1.4. VOTING RIGHTS						
1.4.1 - There is no restriction preventing shareholders from exercising their shareholder rights.	Х					

		COMPANY	EVELANATION			
	YES	PARTIAL	NO	EXEMPTED	NOT APPLI- CABLE	EXPLANATION
1.4.2 - The company does not have shares that carry privileged voting rights.	Х					
1.4.3 - The company withholds from exercising its voting rights at the General Shareholders' Meeting of any company with which it has cross-ownership, in case such cross-ownership provides management control.					X	
1.5. MINORITY RIGHTS						
1.5.1 - The company pays maximum diligence to the exercise of minority rights.	X					
1.5.2 - The Articles of Association extend the use of minority rights to those who own less than one twenthieth of the outstanding shares, and expand the scope of the minority rights.			x			Article 19 of our Articles of Association stipulates the lower limit for the exercise of minority rights as five per cent - one twenthieth as envisaged in the TCC. The proposal of the communiqué is that this right should be used to a lesser extent.
1.6. DIVIDEND RIGHT						
1.6.1 - The dividend policy approved by the General Shareholders' Meeting is posted on the company website.	х					
1.6.2-The dividend distribution policy comprises the minimum information to ensure that the shareholders can have an opinion on the procedure and principles of dividend distributions in the future.		х				"The Dividend Distribution Policy" prepared by the Board of Directors was approved by our shareholders at the 2013 Annual General Assembly. However, our dividend distribution policy contains uncertainties regarding the distribution of the dividend to be generated since no dividend yield, minimum profit distribution rate etc. are included.
1.6.3- The reasons for retaining earnings, and their allocations, are stated in the relevant agenda item.	х					
1.6.4 - The board reviewed whether the dividend policy balances the benefits of the shareholders and those of the company.	х					
1.7. TRANSFER OF SHARES						
1.7.1- There are no restrictions preventing shares from being transferred.	X					
2.1. CORPORATE WEBSITE						
2.1.1 The company website includes all elements listed in Corporate Governance Principle 2.1.1.	Х					
2.1.2 - The shareholding structure (names, privileges, number and ratio of shares, and beneficial owners of more than 5% of the issued share capital) is updated on the website at least every 6 months.	x					

		COMPANY	COMPLI	EVDI A NATION		
	YES	PARTIAL	NO	EXEMPTED	NOT APPLI- CABLE	EXPLANATION
2.1.4-The company website is prepared in other selected foreign languages, in a way to present exactly the same information with the Turkish content.		х				The website of our Company has been prepared in Turkish and English, but it is differentiated as content.
2. 2. ANNUAL REPORT						
2.2.1-The board of directors ensures that the annual report represents a true and complete view of the company's activities.	x					
2.2.2-The annual report includes all elements listed in Corporate Governance Principle 2.2.2.	x					
3. 1. CORPORATION'S POLICY ON STAKEHOLDERS						
3.1.1 - The rights of the stakeholders are protected pursuant to the relevant regulations, contracts and within the framework of bona fides principles.	x					
3.1.3 - Policies or procedures addressing stakeholders' rights are published on the company's website.	х					
3.1.4 - A whistleblowing programme is in place for reporting legal and ethical issues.		х				In order to enable stakeholders to notify our Company about unethical transactions, we set up necessary notification mechanisms. In this context, notifications received via e-mail and telephone are evaluated by the Disciplinary Board and the process is progressed and finalized. On the other hand, there is no mechanism by which these complaints can be forwarded to the audit committee or the corporate governance committee.
3.1.5 - The company addresses conflicts of interest among stakeholders in a balanced manner.	х					
3.2. SUPPORTING THE PARTICIPA- TION OF THE STAKEHOLDERS IN THE CORPORATION'S MANAGEMENT						
3.2.1 - The Articles of Association, or the internal regulations (terms of reference/manuals), regulate the participation of employees in management.	X					
3.2.2 - Surveys/other research techniques, consultation, interviews, observation method etc. were conducted to obtain opinions from stakeholders on decisions that significantly affect them.	x					
3.3. HUMAN RESOURCES POLICY						
3.3.1 - The company has adopted an employment policy ensuring equal opportunities, and a succession plan for all key managerial positions.	x					
3.3.2 - Recruitment criteria are documented.	X					

		COMPANY	COMPLIA	EVDI ANATION		
	YES	PARTIAL	NO	EXEMPTED	NOT APPLI- CABLE	EXPLANATION
3.3.3 - The company has a policy on human resources development, and organises trainings for employees.	X				CABLE	
3.3.4-Meetings have been organised to inform employees on the financial status of the company, remuneration, career planning, education and health.	X					
3.3.5 - Employees, or their representatives, were notified of decisions impacting them. The opinion of the related trade unions was also taken.	X					
3.3.6 - Job descriptions and performance criteria have been prepared for all employees, announced to them and taken into account to determine employee remuneration.	Х					
3.3.7 - Measures (procedures, trainings, raising awareness, goals, monitoring, complaint mechanisms) have been taken to prevent discrimination, and to protect employees against any physical, mental, and emotional mistreatment.	х					
3.3.8 - The company ensures freedom of association and supports the right for collective bargaining.	x					
3.3.9 - A safe working environment for employees is maintained.	X					
3.4. RELATIONS WITH CUSTOMERS AND SUPPLIERS						
3.4.1 -The company measured its customer satisfaction, and operated to ensure full customer satisfaction.	x					
3.4.2 - Customers are notified of any delays in handling their requests.	х					
3.4.3 - The company complied with the quality standards with respect to its products and services.	X					
3.4.4 - The company has in place adequate controls to protect the confidentiality of sensitive information and business secrets of its customers and suppliers.	X					
3.5. ETHICAL RULES AND SOCIAL RESPONSIBILITY						
3.5.1 - The board of the corporation has adopted a code of ethics, disclosed on the corporate website.	х					
3.5.2 - The company has been mindful of its social responsibility and has adopted measures to prevent corruption and bribery.	x					

		COMPANY	COMPLIA	EVELANATION		
	YES	PARTIAL	NO	EXEMPTED	NOT APPLI- CABLE	EXPLANATION
4.1. ROLE OF THE BOARD OF DIRECTORS						
4.1.1 - The board of directors has ensured strategy and risks do not threaten the long-term interests of the company, and that effective risk management is in place.	x					
4.1.2 - The agenda and minutes of board meetings indicate that the board of directors discussed and approved strategy, ensured resources were adequately allocated, and monitored company and management performance.	х					
4.2. ACTIVITIES OF THE BOARD OF DIRECTORS						
4.2.1 -The board of directors documented its meetings and reported its activities to the shareholders.	X					
4.2.2 - Duties and authorities of the members of the board of directors are disclosed in the annual report.	х					
4.2.3 - The board has ensured the company has an internal control framework adequate for its activities, size and complexity.	X					
4.2.4 -Information on the functioning and effectiveness of the internal control system is provided in the annual report.	X					
4.2.5 - The roles of the Chairman and Chief Executive Officer are separated and defined.	x					
4.2.7 -The board of directors ensures that the Investor Relations department and the corporate governance committee work effectively. The board works closely with them when communicating and settling disputes with shareholders.	х					
4.2.8 - The company has subscribed to a Directors and Officers liability insurance covering more than 25% of the capital.		x				Although the damages that may be incurred due to the defects of our Board Members are insured, the amount insured is below 25% of the capital proposed by the communique.
4.3. STRUCTURE OF THE BOARD OF DIRECTORS						
4.3.9 - The board of directors has approved the policy on its own composition, setting a minimal target of 25% for female directors. The board annually evaluates its composition and nominates directors so as to be compliant with the policy.			х			In our Company, there is no policy, target rate as mentioned in the communiqué on the representation of women in the Board of Directors.
4.3.10 - At least one member of the audit committee has 5 years of experience in audit/accounting and finance.	х					

		COMPANY	COMPLIA	EVELANATION		
	YES	PARTIAL	NO	EXEMPTED	NOT APPLI- CABLE	EXPLANATION
4.4. BOARD MEETING PROCEDURES						
4.4.1 - Each board member attended the majority of the board meetings in person.	х					
4.4.2 - The board has formally approved a minimum time by which information and documents relevant to the agenda items should be supplied to all board members.	X					
4.4.3 - The opinions of board members that could not attend the meeting, but did submit their opinion in written format, were presented to other members.					X	
4.4.4 - Each member of the board has one vote.	X					
4.4.5 - The board has a charter/written internal rules defining the meeting procedures of the board.	х					
4.4.6 - Board minutes document that all items on the agenda are discussed, and board resolutions include director's dissenting opinions if any.	X					
4.4.7 - There are limits to external commitments of board members. Shareholders are informed of board members' external commitments at the General Shareholders' Meeting.			X			There is no regulation in our Company that serves as a member of the Board of Directors to take other duties within and outside the group.
4.5. BOARD COMMITTEES						
4.5.5 - Board members serve in only one of the Board's committees.		x				Although it is paid attention not to appoint a member in more than one committee in the committees of our Board of Directors, it is not possible for the independent members to fully implement this rule. Because there are criteria such as the fact that there are no executive members in the committees and the chairman of the committee is an independent member.
4.5.6 - Committees have invited persons to the meetings as deemed necessary to obtain their views.					х	
4.5.7 - If external consultancy services are used, the independence of the provider is stated in the annual report.					х	
4.5.8 - Minutes of all committee meetings are kept and reported to board members.	х					

	COMPANY COMPLIANCE STATUS					EVELANATION
	YES	PARTIAL	NO	EXEMPTED	NOT APPLI- CABLE	EXPLANATION
4.6. FINANCIAL RIGHTS						
4.6.1 - The board of directors has conducted a board performance evaluation to review whether it has discharged all its responsibilities effectively.			х			Performance evaluation of the Board of Directors has not been performed.
4.6.4 - The company did not extend any loans to its board directors or executives, nor extended their lending period or enhanced the amount of those loans, or improve conditions thereon, and did not extend loans under a personal credit title by third parties or provided guarantees such as surety in favour of them.	x					
4.6.5 - The individual remuneration of board members and executives is disclosed in the annual report.			х			The rights granted to the top management are disclosed collectively in the footnotes of the Company's consolidated financial statements. No disclosure is made on individual basis.

ANNEX-2 - CORPORATE GOVERNANCE INFORMATION FORM

1. SHAREHOLDERS

CONVENIENCE TRANSLATION OF CONSOLIDATED FINANCIAL STATEMENTS ORIGINALLY ISSUED IN TURKISH

Consolidated Financial Statements

AT 31 DECEMBER 2018 TOGETHER WITH THE INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Gübre Fabrikaları Türk Anonim Şirketi

A) REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

1) Opinion

We have audited the consolidated financial statements of Gübre Fabrikaları Türk Anonim Şirketi ("the Company") and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at December 31, 2018, and the consolidated statement of income, and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the effects of the matter on the consolidated financial statements described in the Basis for Qualified Opinion paragraph, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2018, and its consolidated financial performance and its consolidated cash flows for the vear then ended in accordance with the Turkish Financial Reporting Standards (TFRS).

2) BASIS FOR QUALIFIED OPINION

As explained in Footnote 16, Razi Petrochemical Co. ("Razi") which is a subsidiary of the Company. has a value added tax receivable amounting to TL 153,3 million due to export sales in accordance with the applicable tax laws. In 2018, TL 38.9 million of the related VAT receivable in the period of 2008-2014 has been examined; the return of TL 18.7 million of the amount has been accepted and the return of 20.2 million TL has been rejected and additional 5,2 TL million of penalty has been notified to Razi. In 2018. the refund amount and the amount of the penalty are recognized in the other operating expenses account. There is an uncertainty about the collection time and whether the TL 18,7 million of approved amount in the remaining portion of the VAT receivable amount of TL 127.9 million which is accounted under the short term other receivables account can be collected. Furthermore, no provision has been recognized in the consolidated financial statements.

As explained in Footnote 16, Razi has employees who started working before 2007 and are subject to the National Iranian Oil Company ("NIOC") Pension Fund System. This system provides employees with additional rights in case of early retirement or death. In the audit report we presented on the financial statements dated 31 December 2017 on the basis of the integrity of the Company's provisions and

because of the fact that there is no actuarial calculation, the qualified opinion was given in the audit report we presented on 12 March 2018. While the Company has determined that the related provision should have been recorded as 27,8 million TI lower as of 31 December 2017 after the actuarial work has been completed in 2018, it is restated by increasing previous year's profit by TL 27,8 million by associationg it with the equity account in the current vear, whereas the amendment should actually be made by rearranging the financial statements of the previous year in accordance with TAS 8.

We conducted our audit in accordance with standards on auditing as issued by the Capital Markets Board of Turkey and Independent Auditing Standards (InAS) which are part of the Turkish Auditing Standards as issued by the Public Oversight Accounting and Auditing Standards Authority of Turkey (POA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics for Independent Auditors (Code of Ethics) as issued by the POA, and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

3) EMPHASIS OF MATTER

As explained in the Footnote 16, the sanctions imposed by the United Nations on the Islamic Republic of Iran since 2010 have recently been suspended and suspended to a certain extent. However, on of the parties of the agreement, the United States has stated that it had withdrawn from the agreement on 8 May 2018 and would reapply the sanctions that had been repealed in two parts of 90 and 180 days. The first part of the sanctions was put into effect on August 6, 2018 and the second group sanctions, which were put into operation on November 4, 2018, will be the subject of sanctions for the petroleum, petroleum products and petrochemical products of Iran. This may affect the future operations of the Group's subsidiary in this country in the future. The economic stability of the Islamic Republic of Iran depends on the measures to be taken against sanctions and the effects of legal, administrative and political developments. These developments are not under the control of companies operating in the country. As a result, companies operating in this country must take into account some of the risks that are not generally observed in other markets. The attached consolidated financial statements include the Group Management's assumptions about the effects of the current sanctions applied on Iran to the operations and financial position of the subsidiary. The future economic situation of the Islamic Republic of Iran may be different from the assumptions of the Group Management. This matter

does not affect our qualified opinion.

As explained in the Footnote 16, Iskenderun Fiscal Directorate ("Treasury") brought a suit in order to hypothecate on behalf of public and cancel land register of property owned by the Group having a surface area of located in Hatay, Iskenderun, in accordance with the Regulation on Implementation of Coastal Law and its provisions since the Shore Edge Line passes through the aforementioned land. The net book value of the aforementioned property is 99.936.706 TL as of the balance sheet date. The Group has appealed against the case in its legal period and requested the re-preparation of expert's report issued towards determining Shore Edge Line which constitutes a base for the case and has filed a counterclaim for the compensation of the right to property, by considering that the case may result in favor of the Treasury. The lawsuits were resulted against the Company, however the Company requested a revision of the appeal court within the legal period and its request was accepted. The legal process is still ongoing as of the balance sheet date. In accordance with the opinions of the legal advisors, the Group Management has not recognized any provision for this matter in the consolidated financial statements at this stage. This matter does not affect our qualified opinion.

As explained in the 8th and 16th Footnotes, Tabosan Mühendislik İmalat ve Montaj A.Ş. ("Tabosan"), one of the consortium partners which the Group purchased Razi shares together applied to the court with the request to postpone bankruptcy in 2011, the court rejected the request and concluded to the bankruptcy of Tabosan and an establishment of a bankruptcy desk to transfer all transactions to the bankruptcy desk. The Group has become a joint guarantor on behalf of Tabosan to the Banks who were financed during the purchase of Razi shares and to Iran Privatization Administration. Within the scope of this surety, the Group has paid 43.780.597 TL to the banks and Iran Privatization Administration on behalf of Tabosan as a guarantor. Since the accumulated dividend receivable of Tabosan's 10.88% share in Razi has been transferred to the bankruptcy desk, the Bankruptcy Administration has paid TL 25.278.225 to the Group on July 8, 2015 and the amount of principal amounting to TL 5.548.880 on 4 August 2016. The principal receivable amount and the interest receivable as of the reporting date arising from the payments made by the Group is 32.482.253 TL.The Bankruptcy Administration may pay the Group's receivables to the extent that it receives the dividend to be received by Razi from Tabosan and the transfer to the bankruptcy desk. The Group management has not recognized any provision for this receivable neither in the prior years nor the current period by considering that the dividend payables by Tabosan regarding the Razi shares and the mortgages and collaterals transferred to the Group by the bank. This matter does not affect our qualified opinion.

As explained in the Footnote 16, there is a lawsuit filed against Razi by the NIOC with the amount of TL 43,8 million due to excessive gas consumption at Ahwaz General and Revolutionary Court. In 2018, the court put mortgages on the land of Razi which was carried in financial statements for TL 97 million. In accordance with the opinions of the legal advisors, the Group Management has not recognized any provision for this matter in the consolidated financial statements at this stage. The attempts of the group management to remove mortgages is still ongoing. This matter does not affect our qualified opinion.

Since 28 January 2012, the Central Bank of the Islamic Republic of Iran has been implementing a fixed exchange rate regime. All foreign currency based transactions are taken into legal records on these exchange rates. In the current period, the exchange rates used in foreign exchange based transactions in the Islamic Republic of Iran differ significantly from the fixed exchange rates. In September 2012, a Foreign Exchange Center was established by the administration of the Islamic Republic of Iran under the supervision of the Central Bank of the Islamic Republic of Iran and indicator ratios close to the free market rates have started to be explained. The TAS 21 The Effect of Changes in Foreign Currency Exchange

Rates Standard states that in case of situations where various exchange rates are available, the Exchange rate to be used is the expected Exchange rate where the related transactions are realized and the future cash flows will occur. Due to the ambifuity of the exchange rate regime in the Islamic Republic of Iran and the uncertainty of the exchange rates of the future cash flows. the Group Management used the mentioned Center's announced exchange rates in the foreign currency valuation of Razi in the accompanying consolidated financial statements. Similarly, the average of the exchange rates announced by the Center was taken into account when calculating the period average rates. This matter does not affect our qualified opinion.

As explained in the Footnote 7, as of December 31, 2018, Razi has trade receivables amounting to 64,4 million from Iran
Petrochemical Co. The Group has not recorded any provision for uncollected and unsecured trade receivables from Iran
Petrochemical. Razi continues its trade with Iran Petrochemical
Co and also continues to negotiate for the collection of the mentioned amount. This matter does not affect our qualified opinion.

4) KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Deferred tax assets generated from investment incentives and prior year losses

As of 31 December 2018, the Group has corporate tax advantages related to investment expenditures incurred under the investment incentive certificates. As of December 31, 2018, a total of TL 44.892.214 deferred tax asset was recorded in the scope of these investment incentive certificates.

In addition, the Group has made an estimate of the recoverable amount of deferred tax assets reflected in the financial statements for the future financial losses based on the taxable profits for the future financial years and the periods in which the past losses can be deducted from the tax base. A deferred tax asset amounting to TL 64.039.560 has been recorded on the basis of this estimate.

There are uncertainties in estimating the future taxable profit that determines whether deferred tax assets will be recognized or not and since the evaluation process requires an estimation, the assumptions upon the measurement and recoverability of deferred income assets is a key audit matter. Explanations on deferred tax assets are presented in the Footnote 28 and the assumptions on recoverability are presented in the Footnote 2.

Our audit procedures include the assessment of the assumptions and estimates made by the Board of Directors regarding the probability of generating sufficient future taxable profits based on previous years' budgets and business plans and past experiences, and it includes our knowledge and experience regarding the tax position of the Group, the timing of taxable profit forecasts and the implementation of the relevant tax legislation.

In addition, tax authorities within the same audit network, have been included in the audit team to examine the impact of deferred tax assets on investment incentives. Measurement of related deferred tax assets has been submitted to the review and evaluation of tax experts.

During our procedures, the consistency of the basic estimates was evaluated and procedures were applied to ensure that the Group's financial losses, tax practices and financial statement disclosures were complete and accurate.

The conformity of the explanations in the consolidated financial statements to TFRSs were also evaluated.

5) RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with TFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's Group's financial reporting process.

6) AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

In an independent audit, our responsibilities as the auditors are:

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with standards on auditing as issued by the Capital Markets Board of Turkey and InAS will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if. individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with standards on auditing as issued by the Capital Markets Board of Turkey and InAS, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

→ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive

to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. (The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.)

- → Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- → Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- → Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may

cause the Group to cease to continue as a going concern.

- → Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- → Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the [consolidated] financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances. we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B) Report on Other Legal and Regulatory Requirements

1) Auditors' report on Risk
Management System and
Committee prepared in
accordance with paragraph 4 of
Article 398 of Turkish Commercial
Code ("TCC") 6102 is submitted
to the Board of Directors of the
Company on 11 March 2019.

2) In accordance with paragraph 4 of Article 402 of the TCC, no significant matter has come to our attention that causes us to believe that the Company's bookkeeping activities for the period 1 January -31 December 2018 and financial statements are not in compliance with laws and provisions of the Company's articles of association in relation to financial reporting.

3) In accordance with paragraph 4 of Article 402 of the TCC, the Board of Directors submitted to us the necessary explanations and provided required documents within the context of audit.

The name of the engagement partner who supervised and concluded this audit is Tolga Kırelli

Güney Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik Anonim Şirketi A member firm of Ernst & Young Global Limited

Tolga Kırelli, SMMM Partner

NOTE 1 - GROUP'S ORGANIZATION AND NATURE OF OPERATIONS

Gübre Fabrikaları T.A.Ş. and its subsidiaries (altogether referrred to as "the Group") are composed of three subsidiaries and two associates. Gübretaş, established in 1952, operates in the field of production and marketing of chemical fertilizers.

The Company performs the majority of its operations together with Türkiye Tarım Kredi Kooperatifleri Merkez Birliği. The registered head Office is in Istanbul and the information about the locations of the other production facilities and offices are summarised here below.

The number of employees of the Company and its subsidiaries for the year ended 31 December

2018 is 1.639 (31 December 2017 – 1.531)

25,4 % of the shares of the Company are traded in the Istanbul Stock Exchange and is registered to the Capital Market Board (CMB).

Subsidiaries

Gübretaş has invested in Razi Petrochemical Co., which is located in Iran and operates in the production and sales of fertilizer and fertilizer raw materials on May 24, 2008. The share of Gübretaş in the capital of Razi as of the date of balance sheet is 48.88% (December 31, 2017; 48,88%), Razi is considered a subsidiary because Gübretas has the right to select and nominate three of the five member Company Board of Razi. Also, it has the controlling power in the operational management of Razi.

At 2010 year end, Razi has established Raintrade Petrokimya ve Dış Ticaret A.Ş. ("Raintrade") in Turkey in order to conduct its sales activities outside Iran. Raintrade has commenced its operations in April 2011. Razi has 100% share in Raintrade; therefore the Group has an indirect ownership of 48,88% in Raintrade.

In 2012, Razi Petrochemical Co. has purchased 87,5% of Arya Phosphoric Jonoob Co., which operates in the same region and

has a production facility with an annual production capacity of 126.000 tons of phosphoric acid. In 2013, Razi has purchased the remaining 12,5% of the shares and fully owns Arya Phosphoric Jonoob Co. Consequently, Arya Phosphoric Jonoob Co has become the subsidiary of Razi Petrochemical Co. The Group's indirect ownership is 48,88%.

On 5 March 2018, the Company signed a negotiation agreement with Negmar Denizcilik Yatırım A.S. and has transferred its shares of 40% to Etis Denizcilik Yatırım A.Ş. On the other hand, 100% of the shares of Nbulkgas Deniz İşletmeciliği Şirketi ("Nbulkgas") that is owned by Negmar were transferred to the Company. In this respect, the Company has %50 of indirect shares of IGLC Anka Shipping Investment S.A. ("IGLC Anka") and IGLC Dicle Shipping Investment S.A. ("IGLC Dicle"). Since the Company has control over Nbulkgas and the majority of board members of the IGLC Phoenix and IGLC Tigers is determined by Gübretaş, and again Gübretaş holds the control power in the operational management of these companies, all companies are evaluated as subsidiaries and included in the consolidated financial statements by full consolidation method. The Company has indirect shares of 50% in IGLC Anka and IGLC Dicle, and shares of 100% in Nbulkgas who has a controlling power over the Group's operations. Nbulkgas who was founded in December 26, 2014, in Turkey and IGLC Anka and IGLC Dicle who were founded in September 19, 2013 in Panama are operating in maritime transportation sector.

Associates

Other than its associates and subsidiaries, the Group, has a participation share of 15.78% in Tarnet Tarım Kredi Bilişim ve İletişim Hizmetleri A.Ş. ("Tarnet") which is an associate of its controlling shareholder established in Turkey.

On 13 April 2009, the Company has invested in Tarkim Bitki Koruma Sanayi ve Ticaret A.Ş. (Tarkim), operating in the production and sales of agricultural pesticide in Turkey. As of the balance sheet date, the participation percentage is 40% (31 December 2017: 40%).

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

The approval of the financial statements

The consolidated financial statements have been approved by the Board of Directors and instructed to be issued on 11 March 2019. The General Assembly has the power to amend the financial statements.

NOTE 2 - BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1. BASIS OF PRESENTATION

Applied financial reporting standards

The Company and its subsidiaries located in Turkey record and prepare their statutory books and statutory financial statements in line with the Turkish Commercial Code and accounting principles stated by the tax legislation. The associate company in Iran keeps its books and accounting entries as per the Iranian legislation in the currency of Iranian Rial (IRR).

The accompanying consolidated financial statements of the Group have been prepared in accordance with the communiqué numbered II-14,1 "Communiqué on the Principles of Financial Reporting In Capital Markets" (the Communiqué) announced by Public Oversight Accounting and

Auditing Standards Authority of Turkey ("POA") on 13 June 2013 which is published on Official Gazette numbered 28676 in order to comply with Turkish Accounting Standards / Turkish Financial Reporting Standards and interpretations prepared in compliance with international standards. These standards are updated in parallel to the changes made in International Financial Reporting Standards (IFRS).

The consolidated financial statements have been prepared with historical cost principal excluding the revaluation of land and buildings presented in property plant and equipment and investment properties. In the calculation of the historical cost, the fair value of the amount paid for the assets are generally considered.

Going Concern

The Group has prepared its consolidated financial statements considering the going concern concept.

Functional Currency

The financial statements of the entities of the Group are presented in local currencies (functional currency) of the economic zones they operate in. All of the financial position and operational results of the entities are presented in Turkish Lira (TL) which is functional currency of the Company and presentation currency of the consolidated financial statements.

The functional currency of the Company's subsidiary operating in Iran is Iranian Rial (IRR) and the functional currency of IGLC Anka and IGLC Dicle, which the Company is participated in 2018, is US Dollar (USD). According to TMS 21 Changes in Exchange Rates, the assets and liabilities of the subsidiaries in foreign countries are converted to Turkish Lira with the parity on the balance sheet day. Income and expense items are translated into Turkish Lira with the average exchange rate in the period.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Currency translation differences resulted from closing and average rate usage is accounted under currency translation difference under equity. These

translation differences are booked as income or loss at the period operations end.

The conversion rates used are as follows:

	31 December 2018		31 De	cember 2017
Currency	Period end	Period average	Period end	Period average
IRR/TL USD/TL	0,000070145 5,2609	0,000089246 4,8378	0,00010458 3,7099	0,000010969 3,6445

2.2 THE NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

The accounting policies adopted in preparation of the consolidated financial statements as at December 31, 2018 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of January 1, 2018. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at January 1, 2018 are as follows

TFRS 15 - Revenue from Contracts with Customers

In September 2016, POA issued TFRS 15 Revenue from Contracts with Customers. The new standard issued includes the clarifying amendments to IFRS 15 made by IASB in April 2016. The new five-step model in the standard provides the recognition and measurement requirements of revenue. The standard applies to revenue from contracts with customers and provides a model for the sale of some non-financial assets that are not an output of the entity's ordinary activities (e.g., the sale of property, plant and equipment or intangibles).

TFRS 15 effective date is January 1, 2018, with early adoption permitted. Entities will transition to the new standard following either a full retrospective approach or a modified retrospective approach. The modified retrospective approach would allow the standard to be applied beginning with the current period, with no restatement of the comparative periods, but additional disclosures are required. The standard did not have a significant impact on the financial position or performance of the Group.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

TFRS 9 Financial Instruments

In January 2017, POA issued the final version of TFRS 9 Financial Instruments. The final version of TFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement. impairment and hedge accounting. TFRS 9 is built on a logical, single classification and measurement approach for financial assets that reflects the business model in which they are managed and their cash flow characteristics. Built upon this is a forward-looking expected credit loss model that will result in more timely recognition of loan losses and is a single model that is applicable to all financial instruments subject to impairment accounting. In addition, TFRS 9 addresses the so-called 'own credit' issue, whereby banks and others book gains through profit or loss as a result of the value of their own debt falling due to a decrease in credit worthiness when they have elected to measure that debt at fair value. The Standard also includes an improved hedge accounting model to better link the economics of risk management with its accounting treatment. TFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted by applying all requirements of the standard. The standard did not have a significant impact on the financial position or performance of the Group.

TFRS 4 Insurance Contracts (Amendments)

In December 2017, POA issued amendments to TFRS 4 Insurance Contracts. The amendments introduce two approaches: an overlay approach and a deferral approach. These amendments are to be applied for annual periods beginning on or after 1 January 2018. Earlier application is permitted. The standard is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

TFRS 22 Foreign Currency Transactions and Advance Consideration

The interpretation issued by POA on December 19, 2017 clarifies the accounting for transactions that include the receipt or payment of advance consideration in a foreign currency.

The Interpretation states that the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income is the date on which an entity initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration. An entity is not required to apply this Interpretation to income taxes: or insurance contracts (including reinsurance contracts) it issues or reinsurance contracts that it holds.

The interpretation is effective for annual reporting periods beginning on or after 1 January 2018. The Group is in the process of assessing the impact of the interpretation on financial position or performance of the Group.

TFRS 2 Classification and Measurement of Sharebased Payment Transactions (Amendments)

In December 2017, POA issued amendments to TFRS 2 Share-based Payment, clarifying how to account for certain types of share-based payment transactions. The amendments, provide requirements on the accounting for;

- a. the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments,
- b. share-based payment transactions with a net settlement feature for withholding tax obligations; and,
- c. a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

These amendments are to be applied for annual periods beginning on or after 1 January 2018. The amendment are not applicable for the Group and will not have an impact on the financial position or performance of the Group.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

TAS 40 Investment Property: Transfers of Investment Property (Amendments)

In December 2017, POA issued amendments to TAS 40 'Investment Property'. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. These amendments are to be applied for annual periods beginning on or after 1 January 2018. Earlier application is permitted. The amendment is not applicable for the Group and will not have an impact on the consolidated financial position or performance of the Group.

Annual Improvements to TFRS - 2014 - 2016 Cycle

In December 2018, POA issued Annual Improvements to TFRS Standards 2014-2016 Cycle, amending the following standards:

→ TAS 28 Investments in
Associates and Joint Ventures:
This amendment clarifies that
the election to measure an
investment in an associate or a
joint venture held by, or indirectly
through, a venture capital
organisation or other qualifying
entity at fair value through profit
or loss applying TFRS 9 Financial
Instruments is available for each
associate or joint venture, at the
initial recognition of the associate
or joint venture.

These amendments are applied for annual periods beginning on or after 1 January 2018.

The amendment is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

TFRS 16 - Leases

In April 2018, POA has published a new standard, TFRS 16 'Leases'. The new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. TFRS 16 supersedes TAS 17 'Leases' and related interpretations and is effective for periods beginning on or after January 1, 2019, with earlier adoption permitted.

Lessees have recognition exemptions to applying this standard in case of short-term leases (i.e., leases with a lease term of 12 months or less) and leases of 'low-value' assets (e.g., personal computers, office equipment, etc.). At the commencement date of a lease. a lessee measures the lease liability at the present value of the lease payments that are not paid at that date (i.e., the lease liability), at the same date recognises an asset representing the right to use the underlying asset (i.e., the rightof-use asset) and depreciates it during the lease term. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate. Lessees are required to recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset separately.

Lessees are required to remeasure the lease liability upon the occurrence of certain events (e.g. a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). Under these circumstances, the lessee recognises the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Transition to TFRS 16:

The Group plans to adopt TFRS 16 using the modified retrospective approach. The Group will elect to apply the standard to contracts that were previously identified as leases applying TAS 17 Leases. The The Group will therefore not apply the standard to contracts that were not previously identified as containing a lease applying TAS 17...

The Group plans to elect to use the exemptions applicable to the standard on lease contracts for which the lease terms ends within 12 months as of the date of initial application and lease contracts for which the underlying asset is of low value. The Company / the Group has leases of certain office equipment (i.e., personal computers, printing and photocopying machines) that are considered of low value.

The Group has assessed the impact of TFRS 16 on its consolidated financial statements including its subsidiaries and does not foresee any significant impact on the basis of the existing lease agreements.

Amendments to TAS 28 Investments in Associates and loint Ventures (Amendments)

In December 2017, POA issued amendments to TAS 28 Investments in Associates and Joint Ventures. The amendments clarify that a company applies TFRS 9 Financial Instruments to long-term interests in an associate

or joint venture that form part of the net investment in the associate or joint venture.

TFRS 9 Financial Instruments excludes interests in associates and joint ventures accounted for in accordance with TAS 28 Investments in Associates and loint Ventures. In this amendment. POA clarified that the exclusion in TFRS 9 applies only to interests a company accounts for using the equity method. A company applies TFRS 9 to other interests in associates and joint ventures, including long-term interests to which the equity method is not applied and that, in substance, form part of the net investment in those associates and joint ventures

The amendments are effective for annual periods beginning on or after 1 January 2019, with early application permitted.

The amendments are not applicable for the Group and will not have an impact on the financial position or performance of the Group.

TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)

In December 2017, POA postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted. The Group will evaluate the effect of the changes, after the before mentioned standards are finalized.

TFRIC 23 Uncertainty over Income Tax Treatments

The interpretation clarifies how to apply the recognition and measurement requirements in "TAS 12 Income Taxes" when there is uncertainty over income tax treatments.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

When there is uncertainty over income tax treatments, the interpretation addresses:

- (a) whether an entity considers uncertain tax treatments separately;
- (b) the assumptions an entity makes about the examination of tax treatments by taxation authorities:
- (c) how an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates; and
- (d) how an entity considers changes in facts and circumstances.

An entity shall apply this Interpretation for annual reporting periods beginning on or after 1 January 2019. Earlier application is permitted. If an entity applies this Interpretation for an earlier period, it shall disclose that fact. On initial application, an entity shall apply the interpretation either retrospectively applying IAS 8, or retrospectively with the cumulative effect of initially applying the Interpretation recognised at the date of initial application.

The Group is in the process of assessing the impact of the interpretation on its financial position or performance.

ANNUAL IMPROVEMENTS 2015 - 2017 CYCLE

In January 2019, POA issued Annual Improvements to TFRS Standards 2015–2017 Cycle, amending the following standards:

- → TFRS 3 Business Combinations and TFRS 11 Joint Arrangements
- → TFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. The amendments to TFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.
- → TAS 12 Income Taxes The amendments clarify that all income tax consequences of dividends (i.e. distribution of profits) should be recognised in profit or loss, regardless of how the tax arises.
- → TAS 23 Borrowing Costs The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings.

The amendments are effective from annual periods beginning on or after 1 January 2019, with early application permitted. The Group is in the process of assessing the impact of the interpretation on its financial position or performance.

Plan Amendment, Curtailment or Settlement" (Amendments to TAS 19)

In January 2019, the POA published Amendments to TAS 19 "Plan Amendment, Curtailment or Settlement" The amendments require entities to use updated actuarial assumptions to determine current service cost and net interest for the remainder of the annual reporting period after a plan amendment, curtailment or settlement occurs. An entity shall apply these amendments for annual reporting periods beginning on or after 1 January 2019, early application is permitted. If an entity applies these amendments for an earlier period, it shall disclose that fact. The Group is in the process of assessing the impact of the interpretation on its financial position or performance.

Prepayment Features with Negative Compensation (Amendments to TFRS 9)

The POA issued minor amendments to TFRS 9 Financial Instruments to enable companies to measure some prepayable financial assets at amortised cost.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Applying TFRS 9, a company would measure a financial asset with so-called negative compensation at fair value through profit or loss. Applying the amendments, if a specific condition is met, entities will be able to measure at amortised cost some prepayable financial assets with so-called negative compensation.

The amendments are effective from annual periods beginning on or after 1 January 2019, with early application permitted. The Group is in the process of assessing the impact of the interpretation on its financial position or performance.

iii) The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adapted/ issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TERS.

ANNUAL IMPROVEMENTS 2010 - 2012 CYCLE

IFRS 17 - The new Standard for insurance contracts

The IASB issued IFRS 17, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. IFRS 17 model combines a current balance sheet measurement of insurance contract liabilities with the recognition of profit over the period that services are provided. Certain changes in the estimates of future cash flows and the risk adjustment are also recognised over the period that services are provided. Entities will have an option to present the effect of changes in discount rates either in profit and loss or in OCI. The standard includes specific guidance on measurement and presentation for insurance contracts with participation features. IFRS 17 will become effective for annual reporting periods beginning on or after 1 January 2021; early application is permitted. The standard is not applicable for the Group and will not have an impact on its financial position or performance.

Definition of a Business (Amendments to IFRS 3)

In October 2018, the IASB issued amendments to the definition of a business in IFRS 3 Business

Combinations. The amendments are intended to assist entities to determine whether a transaction should be accounted for as a business combination or as an asset acquisition.

The amendments:

- → Clarify the minimum requirements for a business
- → Remove the assessment of whether market participants are capable of replacing any missing elements
- → Add guidance to help entities assess whether an acquired process is substantive
- Narrow the definitions of a business and of outputs; and
- → Introduce an optional fair value concentration test.

The amendments to IFRS 3 are effective for annual reporting periods beginning on or after 1 January 2020 and apply prospectively. Earlier application is permitted. The Group is in the process of assessing the impact of the interpretation on its financial position or performance.

Definition of Material (Amendments to IAS 1 and IAS 8)

In October 2018, the IASB issued amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to align the definition of 'material' across the standards and to clarify certain aspects of the definition.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

The new definition states that, Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. An entity will need to assess whether the information, either individually or in combination with other information, is material in the context of the financial statements.

The amendments to IAS 1 and IAS 8 are required to be applied for annual periods beginning on or after 1 January 2020. The Group is in the process of assessing the impact of the interpretation on its financial position or performance.

2.3. SUMMARY OF THE SIGNIFICANT ACCOUNTING POLICIES

2.3.1 REVENUE

Within the scope of TFRS 15
Revenue from Contracts with
Customers standard which is
effective from January 1, 2018, the
Company has started using the
below mentioned five step model
for the recognition of revenue.

- → Identification of contracts with customers
- → Identification of performance obligations in contracts
- → Determination of the transaction price in contracts
- → Distribution of transaction fee to performance obligations
- → Revenue recognition

According to this model, the goods or services undertaken in each contract with the customers are evaluated and each commitment to transfer the goods or services is determined as a separate performance obligation. Then, it is determined that the performance obligations will be fulfilled whether in time or at a certain time. If the Group transfers the control of a good or service over time and thus fulfills the performance obligations related to the related sales over time. it measures the progress of the fulfillment of the performance obligations and recognize the revenue to the consolidated financial statements. Revenue related to performance obligations, such as goods or service transfer commitments. is recognized when customers takes the control of the goods or services.

When the Group is evaluating the transfer of the control of the saled good or service to the customers:

a) Ownership of the Group's right

to collect goods or services,

- b) Ownership of the legal property of goods or services by the customer,
- **c)** The transfer of the ownership of goods or services,
- d) The posession of significant risks and rewards arising from ownership of the goods or services by the customer
- e) and Conditions for the acceptance of goods or services by the customer are taken into consideration.

2.3.2 DIVIDEND AND INTEREST INCOME

The interest income is realized at the related period at rate of the effective interest reducing the assumed cash input gained from the related financial asset with the remaining principal amount over its expected life to the recorded value of the asset.

Dividends from the share investments are recorded when the shareholders get right to receive the dividend.

2.3.3 LEASE INCOME

The rental income from the real estate is accounted in accordance with linear method during the related leasing contract is in effect.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2.3.4 INVENTORIES

Inventories are calculated with the lower one of the cost or net realizable value.

Net realizable value is calculated by deducting the completion cost and assumed costs for sale from the assumed sale price fixed under normal commercial conditions. When the net realizable value of inventories falls below its cost, the inventories value is reduced to net realizable value and reflected to the income statement as an expense on the year when the value decrease happened. If the conditions causing the inventories to reduce to the net realizable value are no more effective or if the net realizable value increase due to changing economical conditions; the provision for decrease in value of the stocks is cancelled. The cancelled amount is limited with the earlier determined amount of decrease in value of the inventories.

The processing cost is used as a cost system. In the inventories, the first-in-first-output costing method is applied for first material and goods as well as monthly moving average costing method is applied for the aids and spare parts.

2.3.5 INVESTMENT PROPERTIES

The investment properties are presented for rental income or/ and value growth gain and they are initially valued with their main cost as well as operational cost. Following the initial accounting, the investment properties are evaluated with the fair values reflecting market realities as at the balance sheet date. Gains/losses from the fair value amendments are included in the income statement during the period when they occurred.

The real estate used by the owner has been considered as amortized until they become investment properties shown on the basis of fair value. Since then no amortization has been calculated.

2.3.6 TANGIBLE FIXED ASSETS

Landed properties and buildings that are held in use for the purpose of delivering product / service or for administrative purposes are expressed with their re-evaluated value. Reevaluated value is determined by subtracting accumulated depreciation and accrued depredation that occur within the next period from fair value measured at the re-evaluation date. The re-evaluations are done on a regular basis in such a way that it will not differ from book value of fair value that is to be determined at the re-evaluation date.

Increase resulting from the reevaluation of the aforementioned landed properties and buildings is recorded to re-evaluation fund in equity. If there is a deprecation that has been showed previously in income statement concerning the tangible-fixed assets, increment value resulting from the re-evaluation is recorded to income statement at the rate of said depreciation. Decrease in book value resulting from the reevaluation of mentioned landed property and building is recorded to the income statement in case the asset exceeds its balance in re-evaluation fund relating its previous re-evaluation.

Depreciation of re-evaluated building is included in income statement. When the re-evaluated real estate is sold or upon its retirement, remaining balance in re-evaluation fund is transferred to profits which are not distributed directly. Unless the asset is excluded from the balance sheet, it shall not be transferred from re-evaluation fund to profits which are not distributed directly.

Machines and equipments are shown on the basis of the amount which is after subtracting the accumulated depreciation and accrued depredation from their cost value.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Except the lands and ongoing investments, cost value or valued amounts of tangible-fixed assets are subject to deprecation by using the straight-line method according to their expected useful life. Expected useful life, residual value and depreciation method are reviewed every year for possible effects of changes in estimations and if there is a change in estimations, they are accounted in advance.

Proceeds and losses resulting from disposal or retirement of tangible-fixed assets are determined as a difference between sale revenue and book value of the asset and included in income statement.

Tangible-fixed assets are amortized considering belowmentioned economic lives by using the ordinary depreciation method and on basis of prorate depreciation. (Note 12)

Buildings, land improvements10-50 YearsMachines, facilities and equipment3-40 YearsVehicles4-10 YearsFurnitures and fixtures3-15 YearsLeasehold improvements5 Years

2.3.7 INTANGIBLE-FIXED ASSETS

Intangible-fixed asset is accounted in case expected future economic benefits are possible for the business and the cost of the asset can be measured reliably.

Intangible assets are accounted

with their cost value at the initial recognition. The cost of a separately acquired intangible asset is calculated by deducting all discounts from the purchase price and including import taxes and non-refundable purchase taxes as well as all other kind of costs linked to the asset in order to operationalize it...

As of the purchase date, the historical costs of the intangible assets have been finally adjusted for the inflation rates on 31 December 2004. In the current period, the intangible assets are redeemed with straight line method according to their economical life based on the cost value. The amount noted at the financial statement is redeemed in 5 years.

2.3.8 IMPAIRMENT OF NON-FINANCIAL ASSETS

The carrying values of nonfinancial assets are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the income statement for items carried at cost. The recoverable amount of property, plant and equipment is the greater of fair value less cost to sell and value in use. The net selling price is the amount

obtainable from the sale of an asset in an arm's length transaction while value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit. Impairment losses of continuing operations are recognized in the income statement in those expense categories consistent with the function of the impaired asset.

2.3.9 BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets.

All other borrowing costs are expensed in the period they occur.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2.3.10 GOODWILL

Assets with indefinite lives, such as goodwill, are not subject to amortization. An impairment test is performed annually for these assets. For the tangible and intangible assets that are subject to depreciation and amortization, impairment test shall be performed if there is a situation or events in which it is not possible to recover the book value. An impairment loss is recognized if the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. For the purposes of assessing impairment, the assets are grouped at the lowest level of separately identifiable cash flows (cash-generating units). Non-financial assets that are subject to impairment, except for goodwill and economic life are reviewed for possible reversal of the impairment at each reporting date.

2.3.11 FINANCIAL INSTRUMENTS

Financial assets

A financial asset or a financial liability is recognized in the statement of financial position only when it is a party to the contract of the financial instrument. Normal purchases or sales of financial instruments are recognized in the financial statements or excluded from the financial statements by using one of the accounting methods on the transaction date or delivery date. The purchase and sale of securities are recognized on the delivery date. The initial recognition and classification of financial instruments depends on the contractual terms and the relevant business model. A financial asset or financial liability other than TFRS 15 Customer Contracts are measured at fair value when first recognized in financial statements. Transaction costs directly attributable to the acquisition or the issuance of financial assets and liabilities. except for the fair value changes recognized in profit or loss, are also added to the fair value or deducted from the fair value

The financial assets and liabilities of the Group under TFRS 9 are as follows:

Financial assets:

Financial investments, except financial assets classified at fair value through profit or loss and financial assets initially recognized at fair value, are recognized at fair value net of directly attributable transaction costs. Investments are recognized and derecognized on a trade date where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned

Financial assets are classified into the following specified categories: "financial assets at fair value through profit or loss ("FVTPL")", "financial assets measured at amortized cost", and "financial assets at fair value through other comprehensive income ("FVTOCI")".

Financial assets at FVTPL

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term.

Derivatives are also categorized as financial assets at FVTPL unless they are designated for hedging purposes.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Financial assets measured at amortized cost

Financial assets measured at amortized cost are those financial assets that are held within the framework of a business model aimed at collecting contractual cash flows over the life of the asset and which result in cash flows that include principal and interest on the principal amount outstanding at specific dates. Financial assets measured at amortized cost with the initial recognition at fair value including transaction costs are subject to valuation with their discounted cost value by using the effective interest rate method, net of any provision for impairment. Interest income from financial assets measured at amortized cost are recognized in the income statement as an interest income.

Financial assets at FVTOCI

Financial assets at fair value through other comprehensive income are financial assets that are held under a business model that aims both to collect contractual cash flows and to sell financial assets, and financial assets with contractual terms that lead to cash flows that are solely payments of principal and interest on the principle amount outstanding at specific dates.

Financial assets at fair value through other comprehensive income are initially recognized at their fair value including their transaction costs on the financial statements. However, if the fair value cannot be determined reliably, for those with a fixed maturity, the discount rate is calculated using the internal rate of return method for those who do not have a fixed maturity, they are valued using fair value pricing models or discounted cash flow techniques. Unrealized gains or losses arising from the changes in the fair value of financial assets at fair value through profit and loss is recognized in other comprehensive income are shown below Financial Assets Value Increase / Decrease Fund. In the event that the fair value differences of financial assets that are reflected in other comprehensive income are eliminated, the value in the equity accounts as a result of the fair value application is reflected to the period profit/loss.

Recognition and derecognition of financial assets

The Group reflects the financial assets or liabilities to its balance sheet when it becomes a party to the relevant financial instrument contracts. The Group derecognizes an asset; all or part of it, when it loses its control over its contractual rights. The Group derecognizes a financial liability only if the obligation defined in the contract is eliminated, cancelled or expired.

Impairment of financial assets/ expected credit loss

At each reporting period, each financial asset's credit risk within the scope of impairment is assessed from the date which it is first recognized in the financial statements. Within this assessment, the change of the default risk of the financial asset is taken into consideration. The expected loss provision estimate is unbiased, weighted according to probabilities, and includes information that can be supported about past events, current conditions, and forecasts for future economic conditions.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. When a trade receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in the statement of profit or loss.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

With the exception of equity instruments at fair value through other comprehensive income. if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

In respect of equity securities, any increase in equity instruments at fair value through other comprehensive income, subsequent to an impairment loss is recognized directly in equity.

Derivative financial assets

The Group holds derivative financial instruments to hedge its foreign currency risk and classifies it as financial instrument at fair value through profit or loss. Derivative instruments are initially recognized at their acquisition costs which reflect their fair value at the date of contract and are valued at their fair value in the following periods. A financial instrument is classified in this group if it is acquired for sale or repurchase at a later date. Derivative financial instruments are recognized as assets when the fair value is positive and as liabilities

when the fair value is negative.

The derivative financial instruments at fair value through profit or loss of the Group consist of forward foreign currency purchase / sale contracts.

Subsequent to initial recognition, derivative financial instruments are measured at fair value and are reflected to profit or loss at the time of changes in fair value.

Financial assets available for sale

Quoted equity investments and some debt securities held by the Group that are traded in an active market are classified as available-for-sale financial assets and are measured at fair value. The Group has equity instruments that are not traded in an active market but are classified as available-for-sale financial assets and are stated at cost since their fair value cannot be measured reliably.

Trade receivables

Trade receivables that are created as a result of providing products or services to the buyer are recognized at amortized cost at the original invoice amount by using the effective interest method. Short-term receivables with no stated interest rate are measured at the original invoice amount unless the effect of the original effective interest rate is significant.

For the calculation of impairment of trade receivables that are measured at amortized cost

and has no important financial component (a maturity with less then one year), "Simplified approach" is used. In cases where the trade receivables are not impaired due to certain reasons (except for the realized impairment losses), the provisions for losses related to trade receivables are measured by an amount equal to the "life time expected credit loss".

After recognizing allowance receivables, if the entire amount or a portion of the entire amount is collected, the amount deducted from the provision for receivables and the amount is recognized in other operating income

Cash and cash equivalent

Cash and cash equivalent values are the short term investments made up of cash, demand deposits and other short term investments with original maturities of 3 months or less, eligible to be immediately converted into cash without being subjected to the risk of steep value changes and have high liquidity.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Financial liabilities

A financial liability is measured at fair value at initial recognition. During initial recognition of financial liabilities that are not accounted for at fair value through profit or loss, transaction costs directly attributable to the financial liability are added to the fair value. Financial liabilities are subsequently measured at amortized cost using the effective interest method plus the interest expense recognized on an effective yield basis.

2.3.12 FINANCIAL LEASING

Leasing- Group as lessor

Leasing procedure in which a significant portion of risk and benefit arising from owning an asset belongs to lessor is categorized as financial leasing. Other leasing procedures are categorized as operating lease.

Leasing incomes of operating lease are accounted by straight-line method during relevant leasing period. Straight-line initial costs borne during leasing procedure and negotiation are added to cost of leased asset and it is amortized during leasing period by straight-line method.

Leasing procedure in which a significant portion of risk and benefit arising from owning an asset belongs to tenant is categorized as financial leasing, while other leasing procedures are

categorized as operating lease.

Payments performed for operating lease (incentives received or to be received from lessor for carrying out leasing transaction are recorded in income statement by straight-line method during leasing period), are recorded in income statement by straight-line method during leasing period.

2.3.13 IMPACTS OF EXCHANGE RATE

Financial statements of each enterprise of Group are presented with currency unit (functional currency unit) which is valid for basic economic environment that they operate. Financial situation and operation results of each enterprise are indicated as TL which is valid currency unit for company and presentation unit for consolidated financial statements.

Foreign currency unit based transactions (other currencies than TL) made during the preparation of financial statement of each enterprise are recorded based on foreign exchange rates that are applicable on the date of transaction. The monetary assets and liabilities indexed to foreign currency used in balance sheet are converted to Turkish Lira by using foreign exchange bid rates valid on balance sheet date.

Those non-monetary items which are followed with their fair value and recorded in foreign currency unit are converted to TL

based on exchange rates on the date fair values are determined. Non-monetary items in foreign currency unit of which date is calculated over cost are not subjected to conversion again.

Exchange rate differences, except for the conditions listed below, are accounted as profit or loss in the period which they come into existence:

- → Exchange rate differences which are handled with as adjustment item to interest costs on payables that are associated with assets constructed in order to use in future and indicated in foreign currency unit and which are included in costs of such assets.
- → Exchange rate differences caused by transactions made in order to provide financial protection against risks arising from foreign currency unit (accounting policies related to providing financial protection against risks are explained below).
- → Exchange rate differences arising from monetary payables and receivables which compose a part of net investment in foreign operation, are accounted in conversion reserve, are associated with profit and loss in net investment sale and derive from foreign operation of which there is no payment intention or possibility.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Assets and liabilities of Group in its foreign operations are expressed in consolidated financial statements in TL by using exchange rates valid on the date of balance sheet. Income and expense items are converted by using average exchange rates during the period, in case that no substantial fluctuation has been occurred on foreign exchange rates during the period in which exchange rates valid on the date of transaction should be used (in case a substantial fluctuation occurs. exchange rates on transaction date are used). Exchange rate difference which has occurred is classified as equity and transferred to Group's conversion fund. Conversion differences in question are recorded on consolidated income statement in the period when foreign operations are sold out.

Goodwill and fair value adjustments arising from foreign operation purchase are considered as assets and liabilities of foreign operation and converted by using period-end exchange rate.

2.3.14 EARNINGS PER SHARE

Earnings per share stated in consolidated income statement is calculated by dividing net profit by weighted average number of share certificate which exists in market during the year.

In Turkey companies increase their capitals by means of "non-paid up shares" which they distributed from their previous year profit to

their shareholders. Such kind of "non-paid up shares" distribution is evaluated as exported shares in calculation of earnings per share. According to this, weighted average number of shares used in this calculation is found by taking into account past effects of share distribution in question.

2.3.15 SUBSEQUENT EVENTS

Even though the events after balance sheet date have come up after any announcement made about profit or any public announcement about other selected financial information, they cover all the events occurred between balance sheet date and date of authorization for balance sheet publication.

In case that the events requiring adjustment have come up after balance sheet date, Group adjusts the amounts included in financial statements in compliance with this new situation.

2.3.16 PROVISIONS, CONDITIONAL ASSETS AND LIABILITIES

A provision is reserved in consolidated financial statements, in case that there is a current liability arising from past events, it is possible to carry out the liability and the amount of liability in question can be estimated in a safe way.

The amount reserved as provision is calculated by estimating in the

safest way the expense to be made in order to fulfill the liability as of balance sheet date by taking into account risks and uncertainties about liability.

In case that provision is measured by using estimated cash flow required for meeting current liability, the book value of provision in question is equal to present value of relevant cash flows.

In case that either a part or whole of economic benefit required for paying the provision is expected to be met by third parties, the amount to be collected is accounted in case that the collection of relevant amount is almost certain and can be measured in a safe way.

2.3.17 TAXES CALCULATED ON THE BASIS OF THE COMPANY'S EARNINGS

Since Turkish tax legislation does not allow preparation of consolidated tax statement of a main company with its subsidiary, tax provisions are calculated separately based on each enterprise as it is reflected on attached consolidated financial statements.

Expense of income tax consists of sum of current tax and deferred tax expense.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Current tax

Current year tax liability is calculated over the part of period income which is subjected to tax. The profit subjected to tax is different than the profit included in income statement since it excludes the items which is taxable in other years or is tax deductable as well as those which are impossible to tax or could not be tax deductable. Current tax liability of Group has been calculated by using tax rate which has become legal as of the date of balance sheet or become legal at a considerable extend.

Deferred tax

Deferred tax liability or asset is found out by calculating temporary differences between the amounts of assets and liabilities shown in financial statement and the amounts taken into consideration in calculation of legal tax base by balance sheet method taking into account legalized tax rates of tax effects. While deferred tax liabilities are calculated for all of taxable temporary differences, deferred tax assets consisting of deductible temporary differences are calculated provided that benefiting from the differences in question is highly-likely by making profit subjected to tax in future. The mentioned assets and liabilities are not accounted in case that they arise from inclusion of temporary difference, goodwill

related to transaction not affecting commercial or financial profit/ loss or other assets and liabilities in the financial statement for the first time (except for business enterprise merger).

Deferred tax liabilities are calculated for all of taxable temporary differences which are associated with investments in subsidiaries and affiliates and shares in joint ventures except for the conditions under which Group is able to control removal of temporary differences and under which possibility of removal of these differences in near future is low. Deferred tax assets arising from taxable temporary differences which are associated with such kind of investments and shares are calculated provided that benefiting from the differences in question is highly-likely by making sufficient profit subjected to tax in near future and removal of relevant differences in future is possible.

Recorded value of deferred tax asset is reviewed as of each balance sheet date. Recorded value of deferred tax asset is reduced at extend to which it is impossible to obtain financial profit which will enable to benefit from it partially or wholly.

Deferred tax assets and liabilities are calculated over tax rate which has become legal or become legal at a considerable extend (tax regulations) as of the date of balance sheet and which is

expected to be valid in the period during which assets will realize or liabilities will be fulfilled. During the calculation of deferred tax assets and liabilities, tax results of methods anticipated for Group assets' regaining their book value or fulfilling its liabilities as of balance sheet date are taken into consideration.

Deferred tax assets and liabilities are deducted in case that there is a legal right related to deducting current tax assets and current tax liabilities or assets and liabilities in question are associated with income tax collected by the same taxation authority or Group has the intention to pay it by way of clarifying its current tax assets and liabilities.

Current tax except for those which are associated with the items accounted as receivable or payable directly in equity (under these circumstances deferred tax related to relevant items are accounted directly in equity) or those which arises from first recording of business enterprise mergers as well as deferred tax of the period are accounted as income or expense in income statement. Tax effect is taken into account during business enterprise mergers, calculation of cost control or determination of purchase-cost exceeding part of share obtained by purchaser at the fair value of identifiable asset, liability and contingent payables of purchased subsidiary.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2.3.18 BENEFITS FOR EMPLOYEES

Termination indemnity liability

In accordance with provisions of current laws and collective labor agreements in Turkey, termination indemnity is made in case of retirement or displacement. In compliance with TAS 19 Employee Benefits Standard ("IAS 19") which has been updated, such payments in question are described as identified retirement benefit plans. In fact, Turkish and Iranian seniority indemnity systems are similar, there are not core differences between them. Moreover while period of Razi's privatization, the right of early retirement is given to employees and responsibility is accounted in the scope of TAS 19 by Razi.

Termination indemnity liability which was accounted in balance sheet was calculated according to net present value of estimated amount of liability which was expected to arise in future due to retirement of all employees and reflected on financial statements.

Seniority incentive premium

In accordance with the prevailing collective labor agreement, seniority incentive premium is paid to the staff within the scope of agreement in the years when they complete certain seniority incentive periods. The liability calculated for incentive premium in question is reflected on records. (Note 17)

Vacation pay provision

The company makes a provision for the wages corresponding to the unused portion of vacation allowances of its employees in the previous years. (Note 17)

2.3.19 STATEMENT OF CASH FLOW

The cash flows pertaining to the period are classified and reported in a manner that will include the costs of main activities, investments and financing.

Cash flows originating from main activities indicate cash flow of Group arising from activities of fertilizer and petro chemical products sale.

Cash flows related to investment operations indicate Group's cash flow used in and obtained through investment operations (fixed investments and financial investments)

Cash flows related to finance operations indicate resources of Group used in finance operations and repayment of these resources.

Cash and cash equivalent values are the short term investments made up of cash, demand deposits and other short term investments with original maturities of 3 months or less, eligible to be immediately converted into cash without being subjected to the risk of steep value changes and have high liquidity.

2.3.20 CAPITAL AND DIVIDENDS

Ordinary shares are classified as equity capital. Dividends distributed on ordinary shares are recorded by deducting from the accumulated profit in the period that the dividend payment decision is reached.

2.3.21 BASIS OF CONSOLIDATION

- a) Consolidated financial statements have been prepared in accordance with principles stated on consolidated financial statements for the year ended 31 December 2018 and include financial statements of Gübretaş and its Subsidiaries.
- b) At 31 December 2018, there are no changes in voting rights or proportion of effective interest on Subsidiaries that are subject to consolidation from the information stated on consolidated financial statements for the year ended 31 December 2017. The statement of financial position and statement of income of the subsidiaries are consolidated by full consolidation method and the carrying value of the investment held by the Company is eliminated against the related equity. Intercompany transactions and balances between the Company and its subsidiaries are eliminated on consolidation. The cost of and the dividends arising from, shares held by the Company in its subsidiaries are eliminated from equity and income for the year, respectively.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

- c) The Group's significant interest in affiliates is accounted for with equity method. Affiliates accounted by equity method are presented in consolidated statement of financial position with additions or deductions of changes on share of the Group on net assets of the affiliate and with deduction of provisions for the decline in the value. The comprehensive income statement presents shares of financial results of the Group's affiliates. The changes of the amount, not reflected on income or loss of the affiliate, on the equity of the affiliate can requisite an adjustment on the net book value of the affiliate in proportion of the Group's share. The share of the Group from these changes is directly accounted under the Group's equity.
- d) Other investments in which the Group has interest below 20%, or over which the Group does not exercise a significant influence, or which are immaterial, are classified as available-for-sale. Available-for-sale investments that do not have a quoted market price in active markets and whose fair value cannot be measured reliably are carried at cost less any provision for diminution in value.
- e) The non-controlling shareholders' share of the net assets and results for the period for the subsidiaries are classified separately in the consolidated statement of financial position and statements of comprehensive income as non-controlling interest.

2.3.22 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

At the process of preparing of consolidated financial statements pursuant to Turkish Financial Reporting Standards, The Group's management should make critical accounting estimates and judgments that determines as date of reporting period, amount of income and expenses and amount of probable liabilities and guarantees that may be occurred as date of balance sheet. Although these forecasts and assumptions. is depend on the groups' well knowledge that is associated current event and transactions, may differ from actual results. Forecasts are reviewed on a regular basis, required adjustments is made and reflected to periods' income statement. In the next financial period, forecasts and assumptions that may risk of adjustment of assets and liabilities' registered values, are shown as follows:

Net realizable value

Stock is valued at lower of cost or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses.

Goodwill impairment

The Group reviews goodwill for impairment annually. Razi has been identified as the cash generating unit since the goodwill balance

has been recognized through the acquisition of Razi. The value in use calculations are based on post-tax Turkish Lira cash flow projections as approved the Group management. 14% discount rate and 4% growth rate (31 December 2017: discount 14%, growth 4%) have been used in calculations of the value in use. Discount rate before tax for presentation is about 14% (31 December 2017: 14%) The discount rate represents the risk associated with the entity. Based on the impairment analysis performed by Group management, no impairment of goodwill has been identified. As of 31 December 2018, the Group does not determine impairment in goodwill amount according to results of value impairment tests which was made by using the above assumptions.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Deferred tax

Group, recognized deferred tax asset and liability for temporary timing difference arising from difference between its financial statement which constitute the basis of Tax and financial statement is prepared according to TFRS. Deferred tax assets' partially or whole recoverable amount is estimated in current circumstances. While evaluating, projections of future profits, occurred loss in current period, deadline of use of inappropriate loss and other tax assets and tax planning strategies can be used if necessary has been taken into account. In the light of data obtained, if group's taxable profit will be obtained in future is not enough to meet all deferred tax assets, partially or whole of deferred tax is reserved. If operating results in future excess Group's expectations, it may be required to enroll unregistered/ recorded deferred tax assets.

Fair value of properties

Fair value of the properties of the Group as of December 31, 2018 is established according to valuation performed by an independent expertise company which does not have relation with the Group. Yetkin Gayrimenkul Değerleme ve Danışmanlık A.Ş, which is an independent valuation company authorized by Capital Markets Board of Turkey and Banking Regulation and Supervision Authority, has the appropriate

quality and experience regarding the valuation of properties at aforementioned locations. It is established through Market Value Approach, Cost Approach and Capitalization of Revenues Approach which are appropriate to International Valuation Standards. Unit price is established following the performance of price adjustment in the framework of criteria which can affect Market value considering the similar properties which are put on sale or sold/rented recently in the Market Value Approach. Judgement on the valuation does not take deed liens into consideration and depends upon the acceptation that there is no case regarding the property. Cost approach is referenced upon reconstruction cost of the building in present conditions. Capitalization of Revenues Approach is the return capitalization calculating rate of return with an appropriate discount rate including potential income sources, cash flows, and rental losses deducting the operation expenses.

2.4 MERGERS

On 5 March 2018, the Company signed a negotiation agreement with Negmar Denizcilik Yatırım A.Ş. and has transferred its shares of 40% to Etis Denizcilik Yatırım A.Ş. On the other hand, 100% of the shares of Nbulkgas Deniz İşletmeciliği Şirketi ("Nbulkgas") that is owned by Negmar were transferred to the Company. In

this respect, the Company has %50 of indirect shares of IGLC Anka Shipping Investment S.A. ("IGLC Anka") and IGLC Dicle Shipping Investment S.A. ("IGLC Dicle"). Since the Company has control over Nbulkgas and the majority of board members of the IGLC Anka and IGLC Dicle is determined by Gübretaş, and again Gübretaş holds the control power in the operational management of these companies, all companies are evaluated as subsidiaries and included in the consolidated financial statements by full consolidation method. The Company has indirect shares of 50% in IGLC Anka and IGLC Dicle, and shares of 100% in Nbulkgas.

As of 31 December 2018, the fair values of the identifiable assets acquired and identifiable liabilities acquired under the aforementioned business combination are determined.

NOTE 4 - SEGMENT REPORTING

Group's competent authority of making decision reviews the results and activities based on geographical divisions in order to make decision on resources to be allocated to departments and evaluate the performance of these departments. The company operates in Turkey; whereas Razi, a subsidiary, operates in Iran.

The company undertakes chemical fertilizer production sales throughout Turkey. Razi Company on the other hand, performs the production and sales of chemical fertilizer raw materials.

Since Company management evaluates operation results and performance through financial statements prepared in accordance with TFRS, TFRS consolidated financial statements are used to prepare segment reporting.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

Other trade payables	5.081.207	26.695.219
Creditors	337.249.522	538.327.857
Payables to NIOC	435.870.054	249.958.136

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

NOTE 8 - OTHER RECEIVABLES AND PAYABLES

Other short term receivables:

TOTAL	216.078.981	198.708.598
Other various receivables (**)	32.378.312	53.418.414
Other various receivables (Tabosan) (*)	32.482.253	25.078.121
Due from personnel	8.849.346	9.244.740
VAT receivables (Razi)	142.369.070	110.967.323
	31 December 2018 3	1 December 2017

Other long term receivables:

5.197.910	-
2.666.364	3.738.013
52.084.226	10.381.720

(*) The total amount of capital receivables sourcing from payments made as co-quarantor and accrued interest receivable as of the report date of the Group is 34.271.870 TL. The Group management have requested from the Bankruptcy Administration as of report date to realize share transfer of Razi shares owned by Tabosan at a rate of 1,31% corresponding to payments at an amount of 5.439.402 EUR made as co-quarantor. Since the aforementioned request was not accepted by the Bankruptcy Administration, the Group went to law and it is decided to pass a cautionary judgment on 27 June 2013 in order to avoid any savings on shares and distribution of 1,31% of Razi shares owned to Tabosan. Share transfer lawsuit brought by the Group to the court was dismissed and appealed by the Group and is still under Supreme Court investigation. The share transfer file brought to the court by the Group has been rejected and appealed by the Group but the decision of the court is approved by the Supreme Court. Therefore the Group has made a request of revision of the decision. The Group shall apply to record the receivable subject to the aforementioned case in the Bankruptcy estate if the case with a share transfer request which was brought to court by the Group to the Bankruptcy Administration is resulted in a negative manner

Additionally, since the request of the Group regarding the recording of its other receivables sourcing from payments made as a co-guarantor to the bankruptcy estate was dismissed, the Group brought a lawsuit

against Bankruptcy Administration regarding the recording of its receivables to the court. Bankruptcy Administration accepted the aforementioned lawsuit and the Court decided to accept the lawsuit regarding recording of receivables following this acceptance declaration in 15 July 2017. Since the accumulated dividend receivables striking to 10,88% shares of Tabosan at Razide reverted to bankruptcy estate, the Bankruptcy administration paid its capital receivable at an amount of 25.278.225 TL on 8 July 2015. The registration of this record will be finalized. The Bankruptcy Administration has paid TL 5,548,880 to the Group on 4 August 2017, which is the principal amount receivable of the Group. The Bankruptcy Administration may pay the Group's balance receivables to the extent that it receives the dividend to be paid by Tabosan to Razi and to the bankruptcy table and to the extent that the Group's balance sheet receivables are met.

(**) As of 31 December 2018, 18.833.591 TL of Group's other various receivables consist of the receivables of Gübretaş regarding VAT returns. (2017: 33.539.248 TL)

(***) Due from personnel is composed of funds given to Razi employees.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Other short term payables:

Total	34.850.852	221.497.832
Other payables	33.332.135	80.342.843
Payables from investments accounted by equity method	-	43.642.840
Dividend payables to non-controlling interests	1.518.717	97.512.149
	31 December 2018 3	1 December 2017

Contingent liabilities

The Joint Comprehensive Plan of Action (JCPOA) signed between Iran and P5 + 1 countries (five permanent members of the United Nations Security Council and Germany) and the European Union in July 2015, comprises of the abolition of the economic sanctions imposed by the European Union, United States and the United Nations Security Council in return of Iran to limit its nuclear activities and the interruption of the implementation of certain sanctions. The agreement has been adopted by the International Atomic Energy Agency after Iran has fulfilled its obligations under the agreement as of January 2016 and the sanctions of United Nations against Iran due to its nuclear activities, have been abolished.

However, on of the parties of the agreement, the United States has stated that it had withdrawn from the agreement on 8 May 2018 and would reapply the sanctions that had been repealed in two parts of 90 and 180 days. The first part of the sanctions was put into effect on August 6, 2018 and the second group sanctions, which were put into operation on November 4, 2018, will be the subject of sanctions for the petroleum, petroleum products and petrochemical products of Iran.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

On 5 November 2018, the Office of the Foreign Assets Control (OFAC) of the US Treasury Department updated the list of person and organization subject to sanctions, and any of the companies within the Group have been included in the list as of the date of these financial statements.

Iskenderun Fiscal Directorate ("Treasury") brought a suit in order to hypothecate on behalf of public and cancel land register of property owned by the Group having a surface area of 79.350 m2 located in Hatay, Iskenderun, Sarıseki in accordance with the Regulation on Implementation of Coastal Law and its provisions since the Shore Edge Line passes through the aforementioned land. The net book value of the aforementioned property is 99.936.706 TL as of balance sheet date. The Group has appealed against the case in its legal period and requested to re-preparation of expert's report issued towards determining Shore Edge Line which constitutes a base for the aforementioned case. Additionally, the Group has brought a suit for the compensation of property right through considering that the case will result in favour of Treasury. In March of 2018, Iskenderun 3. Civil Court partially accepted the case opened by the Property Directorate and decided to cancel the title deed registration of

 $78.674,76 \text{ m}^2$ of the immovable property of the Company located in Hatay, İskenderun and Sariseki borders, the court ruled that the applicant had been denied the registration with the abandonment as a line and rejected the request concerning the surplus and rejected the case against the group. Within the legal period, the Group has applied for the appeal law, the group has accepted the appeal and the Gaziantep Regional Court of Justice has removed the decisions given by the Law Department of the 15th Law Department and the Group actions and returned the case to the local court for reconsideration. The Group Management has not recorded any provision in its accompanying consolidated financial statements since the legal procedures have not been finalized yet with respect to views of legal advisors.

Tabosan Mühendislik İmalat ve Montaj A.Ş. ("Tabosan"), one of the consortium partners of the Group at the acquisition of Razi shares have filed a petition for adjournment of bankruptcy in 2011 but the bankruptcy court rejected the petition and decided on the bankruptcy of Tabosan and formation of a trustee committee to manage the assets of Tabosan. The Group becomes a co-guarantor in the name of Tabosan to Iran Privatization Administration and banks for

the finance obtained during the acquisition process of Razi shares. Under this surety, the Group paid the debt of Tabosan to the Banks and Iran Privatization Administration amounting to TL 43.780.597 in the title of guarantor and the receivable arising from these transactions recorded in the other receivables account. The Group management have not made a provision at this stage yet in the current period related to this receivable, taking hypothecs and deposits transferred to the Group by bank and its right to purchase shares owned by Tabosan at initial purchase price per share in accordance with the protocol concluded during the purchase of Razi shares with Tabosan into consideration. In addition, the Group Management has made a request to realize a share transfer of 1,31%, corresponding to a partial payment made for surety from Razi shares owned by Tabosan, to Bankruptcy Administration as of the reporting date. The Group has filed a lawsuit regarding the fact that the Bankruptcy Administration has not accepted this request, as a result of this lawsuit on June 27, 2013, a precautionary injunction was issued in order to prevent 1.31% of the shares of Razi, which are owned by Tabosan, from being distributed to the table creditors and to avoid any savings.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

The Group's transfer of share was rejected and the Group appealed, but the Supreme Court upheld the court's decision. The application for rectification of the decision of the Supreme Court of Appeals regarding the transfer of shares by the Group was also rejected by the Supreme Court.

The group then applied for the registration of the amount subject to the transfer of shares to the bankruptcy desk as a receivable. In addition, the Group has filed a lawsuit against the bankruptcy administration, as the request for registration of other receivables due to payments made by the Group was rejected by the bankruptcy administration. The Bankruptcy Administration has accepted the filing of the receivables filed by the Group at 15 July 2017. The Bankruptcy Administration has paid the principal amount of 25.278.225 TL on 8 July 2017 to the Group since the accumulated dividend receivable which belongs to Tabosan's 10.88% stake in Razi has been transferred. to the administration. The bankruptcy administration has paid TL 5,548,880 to the Group on 4 August 2017, which is the principal amount receivable of the Group. The principal receivable arising from the payments made by the Group and the interest receivable as of the date of the report is TL 24,952,165. The Bankruptcy Administration

may pay the Group's balance receivables to the extent that it receives the dividend to be paid by Tabosan to Razi and to the bankruptcy table and to the extent that the Group's balance sheet receivables are met.

The Group management has not recorded any provision for this receivable neither in the prior years nor the current period by considering the dividend share of Tabosan on the Razi shares and the mortgages and collaterals transferred to it by the bank.

There is a lawsuit filed against Razi by the NIOC with the amount of TL 43,8 million due to excessive gas consumption at Ahwaz General and Revolutionary Court. In 2018, the court put mortgages on the land of Razi which was carried in financial statements for TL 97 million. In accordance with the opinions of the legal advisors, the Group Management has not recognized any provision for this matter in the consolidated financial statements at this stage.

The Company's subsidiary Razi has a value added tax of TL 127, 9 million. Despite the fact that there is an exemption for value added tax based on export sales in accordance with the current tax regime in Iran and the tax is required to be returned in case of declaration of necessary documents, the demand for Razi Administration has not been

accepted as of the report date yet. There is uncertainty regarding the collection time of this receivable amount accounted under short term other receivables and Group Management has not provided any provision in consolidated financial statements.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Regarding to legal records of company, there is no resource available for distribution. (2017: 246.840.174 TL).

NOTE 20 - DERIVATIVE FINANCIAL INSTRUMENTS

The Group holds derivative financial instruments to hedge against foreign currency risk and the fair value difference is classified as profit or loss. Derivative financial instruments are initially recognized at cost, which reflects their fair value at the date of contract, and are remeasured at fair value in subsequent periods. A financial instrument is classified in this group if it has been acquired for the purpose of being sold or repurchased at a later date.

Derivative financial instruments are accounted for as assets when the fair value is positive and as liabilities when the fair value is negative.

Derivative instruments that reflect that profit/loss the fair value difference of the Group are composed of forward foreign currency purchase and sale contracts.

If the economic features and risks of the articles of association and embedded derivative are not closely related, another instrument with the same terms

as the embedded derivative can be identified as a derivative, and if the financial instrument is combined with its fair value and is not an instrument associated with the income statement, the embedded derivative is is recognized.

The Group does not have derivative transactions within the scope of hedge accounting. For this reason, derivative financial instruments are measured at their fair value after they are initially recorded and are reflected in profit or loss when changes in their fair value are realized.

NOTE 28 - INCOME TAXES (INCLUDING DEFERRED TAX ASSETS AND LIABILITIES)

Current and deferred income tax

The tax expense for the year comprises current and deferred tax. Tax is recognised in the income statement, except to the extent that it relates to items recognised directly in equity. In such case, the tax is also recognised in shareholders' equity.

The current income tax charge is calculated in accordance with the tax laws enacted or substantively enacted at the balance sheet date in the countries where the subsidiaries and associates of the Group operate. Under the Turkish Tax Code, companies having head office or place of business in Turkey are subject to corporate tax.

Under the Turkish taxation system, tax losses can be carried forward to be offset against future taxable income for five years. Tax losses cannot retrospectively offset against the profits of previous years.

Furthermore, provisional corporate taxes are paid at 20% (will be applied as 22% for 2018, 2019 and 2020 tax periods)

over profits declared for interim periods in order to be deducted from the final corporate tax.

As of December 31, 2018 and 2017, income tax provisions have been accrued in accordance with the prevailing tax legislation.

Deferred income tax is provided in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying values in the consolidated financial statements. Currently enacted tax rates are used to determine deferred income tax at the balance sheet date.

Since the applicable tax rate has been changed to 22% for the 3 years beginning from 1 January 2018, 22% tax rate is used in the deferred tax calculation of 31 December 2018 for the temporary differences expected to be realized/closed within 3 years (for the years 2018, 2019 and 2020). However, since the corporate tax rate after 2020 is 20%, 20% tax rate is used for the temporary differences expected to be realized/closed after 2020.

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that

it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Provided that deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority and it is legally eligible, they may be offset against one another.

Tax assets and liabilities Corporate tax

The Group is subject to taxation in accordance with the tax regulation and the legislation effective in Turkey.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

In Turkey, the corporate tax rate is 20%. However, in accordance with the addition of temporary 10th article to the Corporate Tax Law, 22% corporate tax rate will be applied to the profits of the entities related to their to 2018, 2019 and 2020 tax periods (for the entities with special accounting period, tax periods commenced in the related year) rather than 20%. This rate is applicable to the tax base derived upon exemptions and deductions stated in the tax legislation and by addition of disallowable expenses to the commercial revenues of the companies with respect to the tax legislation. Corporate tax is required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid by the end of the fourth month.

The tax legislation provides for a temporary tax of 20% (will be applied as 22% for 2018, 2019 and 2020 tax periods) to be calculated based on earnings generated for each quarter. Temporary tax is declared by the

14th day of the second month following each quarter and corresponding tax is payable by the 17th day of the same month. The amounts thus calculated and paid are offset against the final corporate tax liability for the year. If there is excess temporary tax paid even if it is already offset, this amount may be refunded or offset.

Corporate tax losses can be carried forward for a maximum period of 5 years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

15% withholding applies to dividends distributed by resident real persons, those who are not liable to income and corporation tax, non-resident real persons, non-resident corporations (excluding those that acquire dividend through a permanent establishment or permanent representative in Turkey) and non-resident corporations

exempted from income and corporation tax.

Dividend distribution by resident corporations to resident corporations is not subject to a withholding tax. Furthermore, in the event the profit is not distributed or included in capital, no withholding tax shall be applicable.

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis. As of December 31, 2018 and 2017, current income tax payables have been offset against the prepaid taxes in entity basis but such offset amounts have been classified in gross basis in the consolidated financial statements.

Tax provision included in the balance sheet belonging to the period 31 December 2018 and 2017 is as follows:

Prior years corporate tax liabilities	2.113.401	(6.982.477)	(6.982.477)

Deferred tax assets and liabilities

Group is accounting deferred tax assets and liabilities on the basis of the temporary timing differences arising from the difference between financial statements that are prepared in accordance with TFRS and the statements prepared as setting the basis for tax obligations. In general the subject matter differences result from some income and expense amounts included in the tax based statements to take place in different periods in the financial statements that are prepared in accordance with TFRS.

NOTE 29 - EARNINGS PER SHARE

Earnings per share stated in the income statement are calculated by dividing the net income to the weighted average number of ordinary shares outstanding during the year.

Companies can increase their share capital by making a pro-rata distribution of shares ("Bonus Shares") to existing shareholders from statutory retained earnings and statutory revaluation surplus. For the purpose of earnings per share computations,

the weighted average number of shares in existence during the year has been adjusted in respect of bonus share issues without a corresponding change in resources, by giving them retroactive effect for the year in which they were issued and each earlier year.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

The weighted average of the shares and profit per share calculations of the company as is as follows.

	1 January- 31 December 2018	,
Net profit for the period	(64.340.136)	33.317.912
Weighted average number of ordinary shares outstanding during the year (each 1 kr)	33.400.000.000	33.400.000.000
Earnings per share (kr) (*)	(0,0019)	0,0010

As of December 31, 2017, the total dividend distributed is TL 1,081,548 and dividend per share is decreased by 0,00003 TL.

Financial investments ready for sale are valued with cost since they do not have an active market. Group does not expect a value decrease in financial investments

NOTE 32 - FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

The Group focus on the manage of the various financial risks which includes price, fx rates and interest rate changes on monetary and capital markets as a result of its own activity. Besides the Group aimed to decrease potential negative effects of market fluctuations with its risk management programme.

Capital management

In capital management, the Group tries to ensure the continuity of its activities, while it, on the other hand, aims at increasing its profit by using its payable and equity capital balance in the most effective way. The capital structure of the company is comprised of equity capital items such as payables, cash and cash equivalents and other equity capital items including issued capital, capital reserves and profit reserves, which are defined in footnote 19.

Top management of the Group continuously evaluates the risks associated with each capital level together with capital cost and manages capital by trying to ensure the most appropriate payable/equity capital balance. Payables/equity capital ratio is calculated dividing net payables by total capital. Net payable is calculated by deducting cash and cash equivalent values from total payable amount.

Net payable/total capital ratio as of 31 December 2018 and 31 December 2017 is as follows:

31 December 2018 31 December 2017

NET DEBT / TOTAL EQUITY	%227	%187
Total equity	1.257.452.006	1.207.511.087
Net debt	2.728.860.092	2.262.515.217
Cash and cash equivalents (-)	368.851.076	227.960.860
Total debt	3.097.711.168	2.490.476.077

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Hedging activities and derivative instruments

Liquidity risk

The management of the company has formed an appropriate liquidity risk management for the short-, mid- and long-term funding and liquidity requirements. The company manages the liquidity risk by

providing the continuation of sufficient funds and borrowing reserves by regularly following up the estimated and actual cash flows and by matching the maturities of financial assets and liabilities.

The management of the mediumterm and long-term liquidities are realize with sector dynamics, and cashflow cycle is also followed and tested according to various scenarios by Group.

Floating rate financial instruments	31 December 2018 31 December 2017
Time deposits	19.220 13.701

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

Funding risk

Risk of funding for existing and possible loan requirements in future is managed by perpetuated the access with adequate and high quality credit provider.

Credit risk

The Group is subject with credit risk as a result of trade receivables of Credit sales and bank deposits.

The Group aimed the highest possible guarantee for the management of collection risk of trade receivables:

- → Bank Guarantee (Guarantee Letter, Letters of Credit, etc.),
- → Credit Insurance (Global Insurance Policy, Eximbank and Factoring Insurance, etc.),
- → Mortgage,

Risk control for receivables not covered by bank guarantees The individual limits are determined as a result of the evaluation of the customer's credit quality by taking into account the customer's financial position, past

experiences and other factors and the use of these credit limits are continuously monitored.

Credit risk management

The Group is subjected to credit risk because of its trade receivables arising from the forward sales of the Group. Management decreases the credit risk to minimum level regarding its receivables by taking securities (such as bank letter of guarantee, mortgage, etc.) from customers (except for related parties). These credit risks are monitored continuously by the Group and evaluated by considering the quality of the trade receivables, past experiences and current economic condition and expressed in the balance sheet by its net amount after allowance for doubtful receivables is allocated for the receivables not to be collected. (Note: 7). Approximately 72% of Group sales are related to the main shareholder Turkish Agricultural Credit Cooperatives Central Union.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

The credit risks being subjected by the financial instrument types as of 31 December 2018 and 31 December 2017 are as follows:

NOTE 33 - FINANCIAL INSTRUMENTS (FAIR VALUE EXPLANATIONS AND EXPLANATIONS WITHIN THE FRAME OF HEDGE ACCOUNTING)

Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The estimated fair values of financial instruments have been determined by the Group, using available market information and appropriate valuation methodologies. However, judgment is necessarily required to interpret market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the

amounts the Group could realise in a current market exchange.

Following methods and assumptions were used to estimate the fair value of the financial instruments for which is practicable to estimate fair value:

Financial assets

The carrying amounts of foreign currency denominated monetary assets which are translated at year end exchange rates are considered to approximate their fair values.

The carrying values of cash and cash equivalents are estimated to be their fair values since they are short term.

The carrying values of trade receivables along with the related allowances for uncollectibility are estimated to be their fair values

since they are short term.

Financial liabilities

The fair values of short-term financial liabilities and other financial liabilities are estimated to be their fair values since they are short term. The fair values of long-term bank borrowings with variable interest are considered to approximate their respective carrying values, since the initial rates applied to bank borrowings are updated periodically by the lender to reflect active market price quotations.

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise indicated.)

The fair value of financial assets and liabilities are determined as follows:

- → First level: Financial assets and liabilities are valued over stock exchange prices used in active market for assets and liabilities which are similar.
- → Second level: Financial assets and liabilities are valued over the inputs used to find out observable price of relevant asset or liability directly or indirectly in the market other than its stock exchange price specified in first level.
- → Third level: Financial assets and liabilities are valued over the inputs not based on an observable data in the market, which is used to find out fair value of asset and liability.

The fair value classification of financial assets measured at fair value as of 31 December 2018 and 31 December 2017 is as follows:

NOTE 34 - SUBSEQUENT EVENTS

SOCAR Group Companies which SOCAR Turkey Enerji A.Ş. ("STEAŞ") is a subsidiary of, signed a letter of intent dated 31.01.2019 which includes the intention of the Parties to realize a "Potential Cooperation", to initiate the negotiation process with Gübretaş, in order to import carbamide/urea from petrochemical facilities and geographically near producers and to execute the sales of the imported carbamide/urea in the Turkish Republic market as well as overseas markets, which comprises a loint Venture, which both sides would have a 50% of shares in each other.
